From: "Dave Brockman" <dbrock@csky.net>

To: <david.navecky@stb.dot.gov>

This proposed rail line is the worst possible use of our farm land. This is not UNDEVELOPED land for investors to use at their disgression. These farms are a lifelong occupation for these families that will be displaced by this project. Also closing our roads for investors to make profits is unnacceptable. There will be devalued properties all along the route. I hope that this project is denied.
