

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/28/08

Please do not expand EJ+E rail traffic above current levels. As a business owner primarily servicing the Barrington area, I am very concerned about travel times as I serve clients around all the affected RR crossings. On top of servicing clients in a timely manner, I'm concerned by the decrease in family time due to increased travel times.

Thanks for your consideration
