

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: Aug 27, 2008

I have read information about the proposed Canadian national acquisition of the ETOE. I also attended the public meeting in Barrington. I have great concern over the impact to the health and safety of my family and other community residents. This concern is about lack of mitigation for on grade crossings that will require increased time (delay) for emergency services (fire, ambulance, police). Also the increase of Haz mat spills or risk of to our shallow well water which does not have any mitigation solutions.

I employ you to not Approve this acquisition.
