I feel there has not been

4 adequate investigating done to the even
5 better profitability for Canadian National
6 to build new track line further south or
7 further west or anywhere, looping around
8 areas that are already developed where
9 there is no impact other than farmland,
10 where there would be no building,
11 residential building done after the tracks,
12 where people would be aware that the train
13 was going through before they moved in.
14 That's my main comment. And my question
15 was, has anybody done a study on that?

16 All the other things, I'm just
17 echoing what was said tonight as far as the
18 health, the environmental impact, the --
19 certainly the danger to people living in
20 the area because they can't get adequate
21 health, fire services. But I'll mail the
22 rest in.

23 Thank you.
