Subject: I'm the 11th signer: "Protect the Cheyenne Ancestral Homeland"

Dear Surface Transportation Board Chairman Daniel R. Elliott III, Vice Chairman Ann D. Begeman, Commissioner Francis P. Mulvey,

I just signed a petition addressed to you titled [Protect the Cheyenne Ancestral Homeland](#) . So far, 42 people have signed the petition.

You can reach me directly by replying to this email. **Or, post a response for MoveOn.org to pass along to all petition signers by clicking here:**

http://petitions.moveon.org/target_talkback.html?tt=tt-47305-custom-25003-20130819-HI0LJM

The petition states:

"Arch Coal wishes to put in a Tongue River Railroad for a new Otter Creek Coal mine in the Cheyenne ancestral homeland. The mine and railroad are opposed by the Cheyenne people. There is not public interest served as required by the Surface Transportation Board for this coal strip mine and railroad. There is no clear market for this coal, and it is wrong to destroy a people's land. We ask you to stand up and protect the Northern Cheyenne ancestral homelands. Please show your opposition to the Otter Creek mine by opposing the development of the Tongue River Railroad. The Otter Creek area has been historically used by Native American tribes including the Northern Cheyenne and Crow. The coal from this one proposed strip mine would release 2.5 billion tons of carbon dioxide -- one of the biggest new sources globally, which would worsen the effects of climate change."

My additional comments are:

All fossil fuel exploitation must cease! We need a healthy planet to live on. Natural resources are almost always more valuable than mineral exploitation.

The petition states:

"Arch Coal wishes to put in a Tongue River Railroad for a new Otter Creek Coal mine in the Cheyenne ancestral homeland. The mine and railroad are opposed by the Cheyenne people. There is not public interest served as required by the Surface Transportation Board for this coal strip mine and railroad. There is no clear market for this coal, and it is wrong to destroy a people's land. We ask you to stand up and protect the Northern Cheyenne ancestral homelands. Please show your opposition to the Otter Creek mine by opposing the development of the Tongue River Railroad. The Otter Creek area has been historically used by Native American tribes including the Northern Cheyenne and Crow. The coal from this one proposed strip mine would release 2.5 billion tons of carbon dioxide -- one of the biggest new sources globally, which would worsen the effects of climate change."

My additional comments are:

I live and teach on the Northern Cheyenne Reservation. My husband, four children and three grandchildren are all Northern Cheyenne tribal members. The land here is rich and unique and the people hunt and fish here for sustenance. To the Cheyenne, this land, water and air is sacred, and their ancestors fought and deeply sacrificed in the journey from Oklahoma Indian Territory and the breakout at Fort Robinson January 9, 1879. These truly are ancestral homelands and I implore you put a stop to this plan to build a railroad and start a mine. There is no need to remove this coal. Besides, the Earth is now at 392 ppm of CO2 in the atmosphere, and scientists concur that we cannot sustain more than 350 ppm. Thank you.

Subject: I'm the 41st signer: "Protect the Cheyenne Ancestral Homeland"

Dear Surface Transportation Board Chairman Daniel R. Elliott III, Vice Chairman Ann D. Begeman, Commissioner Francis P. Mulvey,

I just signed a petition addressed to you titled [Protect the Cheyenne Ancestral Homeland](#) . So far, 42 people have signed the petition.

You can reach me directly by replying to this email. **Or, post a response for MoveOn.org to pass along to all petition signers by clicking here:**

http://petitions.moveon.org/target_talkback.html?tt=tt-47305-custom-25003-20130819-HI0LJM

The petition states:

"Arch Coal wishes to put in a Tongue River Railroad for a new Otter Creek Coal mine in the Cheyenne ancestral homeland. The mine and railroad are opposed by the Cheyenne people. There is not public interest served as required by the Surface Transportation Board for this coal strip mine and railroad. There is no clear market for this coal, and it is wrong to destroy a people's land. We ask you to stand up and protect the Northern Cheyenne ancestral homelands. Please show your opposition to the Otter Creek mine by opposing the development of the Tongue River Railroad. The Otter Creek area has been historically used by Native American tribes including the Northern Cheyenne and Crow. The coal from this one proposed strip mine would release 2.5 billion tons of carbon dioxide -- one of the biggest new sources globally, which would worsen the effects of climate change."

My additional comments are:

No more fossil fuel extraction of any kind, anywhere, but especially in the Cheyenne ancestral homeland!
