Message:

I would like to voice my concerns regarding the purchase of EJ&E Railway by Canadian National Railway Corp and Grand Trunk Corp. I am very concerned about the changes that would come to my community if CN purchases the railway. It would lead to significant delays and congestion on our roads. We already have enough commuting issues without adding more frequent train delays. It also concerns me that the safety of community would be greatly effected. The railway passes through many of the main roads that everyone crosses repeatedly everyday and also runs along many home where children play. The railway is not set up in a manner that would accommodate constant use. This purchase would negatively impact my community and would make day to day normal activity (driving to work, grocery store, school...) very difficult. Let alone the potential for safety concern with emergency response times being greatly increased. I ask that the application for purchase be denied.

Cynthia Samonds
