

Docket No. - FD 35952

TO MR DAVE NAVECKY
ENVIRONMENTAL ANALYSIS
WASHINGTON DC-20423-0001

MR. NAVECKY

I AM WRITING IN REGARDS TO CONSTRUCTION OF
GLBT'S PROPOSED RAIL LINE - APPROXIMATELY 6000 ACRES
OF PRIME FARM GROUND? - Ridiculous! - LAND CAN
NOT BE MANUFACTURED, When its used in this
manner it is gone forever. Then some country
roads would be closed - FARMERS Depend on
THESE ROADS TO TRANSPORT MACHINERY - KEEPS
THEM OFF THE HIGHWAYS AS THEY TRAVEL MUCH
SLOWER THAN AUTO'S OR SEMIS. THEN THE
TRAFFIC - 110 TRAINS A DAY? - ON MY FARM
THE CNR R.R. TRAVELS EAST & WEST - A DOUBLE
TRACK - WHICH 5-6 MILES GOES TO ONE TRACK.
WHICH CAUSES A LOT OF BLOCKING OF A
CROSSING FOR MAYBE 10 MIN - UP TO 4 HOURS
THIS PROPOSED NEW RR. WILL GO NORTH & SOUTH
OVER THE CNR TRACK. What a catastrophe!
OTHER THAN HELPING CHICAGO I DON'T SEE
any advantage to such an endeavor.

THANK YOU FOR YOUR TIME

Leola NIKSCH
