

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 9-21-08

Please do not let CN Buy the EJ+E tracks!

This will cause untold traffic gridlock in an area
Already Bumper to Bumper.

Our State does not have the money to fix the over-crowded
roads in our Area. there is no way they will have the
money to improve the rail crossings.

TAXPAYERS CANNOT BEAR the cost involved!

Its not right we should have to pay for a foreign
Company to come here and ask the tax payers to fund
~~the~~ the improvements needed.

Let them Build new tray farther out, away
from Areas populated By Schools + Homes.
