

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date:

8/27/08

Comments must be submitted by September 30, 2008.

I Am The Invasive Intercardiac Cardiologist
in The Fox River Valley and live just North
of the RR line. I treat Heart Attacks, Coronary
Artery Disease and may soon treat Acute strokes
and Ruptured Aortic Aneurysms. In short, I treat
those things that kill people quickly.

I Am on staff at 2 Hospitals below the
train line and 2 above train line - thus there
is nowhere to move to avoid the line.

I treat 600 people in the cath lab yearly
for Elective and Urgent Cases. I treat
30 acute Heart attacks in day people that need
immediate care yearly. Delays in getting
myself (and at least 4 other Cardiologists
that I work with) to local cath labs
will result in patient deaths.

This comment is now public record. If
sued for an adverse outcome because of a
delay in my ability to get to a cath lab because
of a train, I will make it clear that
this outcome could have been prevented by you.

YOUR INPUT IS IMPORTANT!
