Please refer to STB Finance Docket No. 35087 in all correspondence addressed to the Surface Transportation Board. Comments must be submitted by February 1, 2008.

I as a homeowner in Bartlett am very concerned about this happening. My home is located about 300 yards away from railroad tracks. There are 4 schools within 200 to 400 yards from railroad. If there is an emergency the new fire station that already up our taxes will have an even harder time to get in the accident. I pay the premium for my home one that there would be no homes behind me well they build now not only that you are adding health issues to what pollution, toxic products being carried in rail cars. There are many children to think about ones that have health issues and even the ones that don't. Our rescue units now have a difficult time getting to us with only five trains now you want more trains. My cousin house alarm was going off the company called me to meet a police officer at the house it took 45 minutes for officer to get there.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
