Re: STB Finance Docket No. 35087
Canadian National Railway Company and Grand Truck Corporation-Control—
EJ&E West Company

Dear Ms. Johnson-Ball:

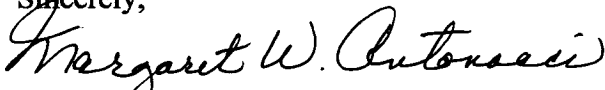

I have been a resident of the City of Warrenville for 17 years and have been paying close attention to the proposed purchase of the EJ&E Railroad (EJ&E) by Canadian National (CN). There have been three meetings of the City of Warrenville with CN representatives presenting the residents' concerns. My home is very close to the tracks.

Studies reflect there will be a significant increase in train traffic and hazardous waste traveling through our community. This potential environmental impact is of great concern to me, other residents, an elementary school and park located less than a mile away. It is my understanding that there is a natural gas line under the tracks in the vicinity of my home and I would assume the additional heavy train traffic would not be good for that line.

For the past three years the City has had efforts of establishing a quiet zone. We have been waiting for the quiet zone for several years and are concerned that the City will be forced to begin the long process all over again.

Because of my concerns about safety, quality of life, property value decreases and unbearable noise levels that I oppose this transaction. Please consider the severe impacts on local residents when evaluating this transaction. Should you require further information, please feel free to contact me at (630) 231-3172.

Sincerely,

Margaret W. Antonacci
