As you know from our previous E-Mails, we are very much opposed to the sale of the railroad tracks that run thru our town of Frankfort, IL., along with several other towns. After being gone for a week and coming back to several articles that have appeared in the newspapers, I have come to the conclusion that Chief Executive Officer E. Hunter has no use for all of us whose homes and towns run along the tracks that he intends to purchase. What he seems to be looking at is the \$\$\$\$\$\$\$\$'s involved or should I say the extreme lack of money he and his company intend to spend to fix the enormous problem that he and his company are creating. I just can not think in the same way that this man is thinking. How can one person be in charge of ruining so many lives and towns and not seem to care. I guess it just goes along with what is happening in this day and age. There is a price put on everything no matter what the outcome might be. PERHAPS SOMEONE CAN EXPLAIN TO US WHY THERE HAS BEEN A TRAIN PARKED WITH THE ENGINE RUNNING NEXT TO OUR HOUSE FOR 9 HOURS NOW AND STILL GOING, 3/11/08. Is there a limit as to how long a train can be parked. Thank you for any help you can give us in this matter. Mike & Sharon Root
