

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 08-27-08

As a 13-year-old in Barrington I am against the C&E trains being purchased by the Canadian National Railway for many reasons. I feel that this is going to be dangerous for the safety of my family, friends, and me. I also believe that when I get my driving permit and begin my driving process I will have to learn differently and that it will make it less fun and more difficult. I hope this study proves that this is a bad thing for Barrington.
