To who it may concern, I am a lifelong resident of Mazon, IL. It is a small rural, agricultural based town. We already have BNSF in our town and the idea of adding another railroad is ludicrous, especially when it would be a private one and use eminent domain to rob us of our farmland. My family has been farming in the area for several generations and no one should be allowed to force us to give up our acreage, especially a private, for profit, unneeded venture. I respectfully ask you to deny GLBT's application to establish a new railroad. Thank you.
