ENTERED  
Office of Proceedings  
June 22, 2017  
Part of  
Public Record

Since Great Lakes Basin transportation failed to mention the City of Chicago as a city served by their rail line, their application is once again incomplete and inaccurate. Due to their severe inability to follow directions, their utter disrespect for the review process and their obvious disingenuous answers to questions I am asking their application be denied. GLBT has shown they can not and are not willing to investigate the details of a project of this size and nature. Details are what makes a project successful, and since GLBT has repeatedly shown they are unable or willing to provide detailed information this project is failed from the start.
