Re: STB Docket No. AB-290 - Abandonment of Rail Lines and Discontinuance of Service -
Norfolk Southern Railway Company and
STB Docket No. AB-859 - Abandonment of Rail Lines and Discontinuance of
Service - Pennsylvania Lines, LLC
Amendment to the System Diagram Map

Dear Mr. Williams:

In accordance with the Board's regulations published at 49 CFR § 1152.10 et seq.,
Norfolk Southern Railway Company and operating subsidiaries and Pennsylvania Lines, LLC are
amending their System Diagram Map.

NSR expected to file this map at an earlier date and thus labeled it "September 2003."
We encountered unexpected delays in completing and receiving certifications for all the required
newspaper notices and postings. We have changed the map from our original draft in order to
leave three lines in Category 5 that we at first had planned to move to Category 1. Newspaper
notices for these lines were published on various dates. We now expect that any filings with
respect to these lines will be notices or petitions for exemption rather than applications, and that
the exemption sought for one or more of the lines will be for discontinuance of service, not
abandonment. Thus, we do not wish to file an official, operative system diagram map listing
these lines in Category 1.

Enclosed are three copies of the amended system diagram map and the updated line
descriptions. Also enclosed is a copy of the service list as well as an Affidavit of Service and
Publication. Please date-stamp the duplicate copy of this letter and return it in the self-
addressed, stamped envelope.

Very truly yours,

James R. Paschall

LEGAL NOTICE

Pursuant to federal regulations published at 49 Code of Federal Regulations § 1152.12(c), Norfolk Southern Railway Company hereby gives notice that it has amended its system diagram map to show that it anticipates filing with the Surface Transportation Board within three years an application for authority to abandon a rail line between Oneida, Tennessee (Milepost TE-0.00) and Devonia, Tennessee (Milepost TE-42.00). The involved line lies in Scott, Campbell and Anderson Counties, Tennessee, and is shown on the accompanying map segment. Agency services for points on the line are handled through the Oneida, Sams, Stanley Jct., Newtown, Winona, Smoky Jct., Swisher, Morco, Rosedale and Devonia, Tennessee, agencies.

Norfolk Southern has prepared a color-coded system diagram map showing all of the lines of its rail subsidiaries. Copies of the map are available upon request from Strategic Planning, Norfolk Southern Corporation, Three Commercial Place, Norfolk, Virginia 23510-2191.

ENVIRONMENTAL PROTECTION DIVISION AIR PROTECTION BRANCH

STATE OF GEORGIA COUNTY OF MUSCOGEE NOTICE OF DRAFT TITLE V OPERATING PERMIT

To all interested parties:

The Georgia Environmental Protection Division announces its intent to issue a Title V Air Quality Operating Permit to the Schatula Road Landfill. The facility is located at 7143 Scacerdote Lane, Columbus, Georgia. The primary purpose of this permit is to identify and consolidate existing State and Federal air requirements applicable to the Schatula Road Landfill and to provide practical method for determining compliance with these requirements. The Georgia Environmental Protection Division (EPD) is preparing Title V Operating Permits in accordance with Title V of the Clean Air Act. This permit will be enforceable by the Georgia EPD, the U.S. Environmental Protection Agency, and other persons as otherwise authorized by law.

This facility used to receive, manage, and dispose of municipal solid waste, but is now closed.

The draft permit and all information used to develop the draft permit are available for review. This includes the application and all other relevant materials available to the permitting authority. This information is available for review at the office of the Air Protection Branch, 4244 International Parkway, Atlanta, Georgia 30354. Copies of the draft permit, narrative, application summary, and permit application will be available at our internet site <http://www.air.dnr.state.ga.us/sspp> by selecting "Draft Title V Permits" on the menu. (Please note that the internet is generally accessible from most public libraries in Georgia and at the Air Protection Branch Office listed above).

If copies are desired, a copying machine for public use is provided by EPD at the Atlanta Air Protection Branch office only and is available on a first-come, first-served basis. One copy of a single draft permit can be made free of charge. If additional copies are required, a copying charge of 25 cents per page will be assessed unless you bring your own copier. Office hours are 8:30 a.m. to 4:00 p.m., Monday-Friday.

You are hereby notified of the opportunity to submit written public comments concerning the draft Title V Air Quality Operating Permit. Persons wishing to comment on the draft Title V Operating Permit are required to submit their comments, in writing, to EPD at the above Atlanta Air Protection Branch address. Comments must be received by the EPD no later than 30 days after the date on which this notice is published in the newspaper. (Should the comment period end on a weekend or holiday, comments will be accepted up until the next working day.) The Division, in making its final decision to issue the Title V permit, will consider all comments received on or prior to that date.

Any requests for a public hearing must be made within the 30-day public comment period. A request for a hearing should be in writing and should specify, in as much detail as possible, the air quality related issues that constitute the basis for the request. Where possible, the individual making the request should also identify the portions(s) of the Georgia Rules for Air Quality Control and/or the Federal Rules that the individual making the request is concerned may not have been adequately incorporated into the draft permit.

Following this 30 day public comment period, the draft permit will undergo a 45 day review by U.S. EPA in accordance with 40 CFR 70.8. Should the draft Permit be changed by EPA as a result of comments received during the comment period, the US EPA forty-five (45) day review period will begin with the day in which the modified permit is proposed to EPA.

After the comment period has expired, the EPD will consider all comments, make any necessary changes, and issue the Title V Operating Permit. Copies of the final Title V Operating Permit, comments received, EPD's responses to comments, and any other relevant information will then be made available for public review during normal business hours at the office of the Air Protection Branch. A summary of comments and any changes made to the final permit will be found in an addendum to the narrative. A copy of this narrative and the final Title V permit will be added to the information already available at the internet address given above.

For additional information, contact Mr. Jimmy Johnston, Program Manager, Stationary Source Permitting Program, at the Atlanta address, or by phone at 404/363-7000. Please refer to this notice when requesting information.

Pub.Sept.15,2003(1002411)

LEGAL NOTICE

Pursuant to federal regulations published at 49 Code of Federal Regulations § 1152.12(c), Norfolk Southern Railway Company hereby gives notice that it has amended its system diagram map to show that its subsidiary, Central of Georgia Railroad Company, anticipates filing with the Surface Transportation Board within three years an application for authority to abandon a rail line between Florida Rock, Georgia (Milepost R-12.0) and Allie, Georgia (Milepost R-55.0). The involved line lies in Muscogee, Harris and Meriwether Counties, Georgia, and is shown on the accompanying map segment. Agency services for points on the line are handled through the Harco, Hamilton, Pine Mountain, Meriwether White Sulphur Springs, Durand and Greenville, Georgia.

Norfolk Southern has prepared a color-coded system diagram map showing all of the lines of its rail subsidiaries. Copies of the map are available upon request from Strategic Planning, Norfolk Southern Corporation, Three Commercial Place, Norfolk, Virginia 23510-2191

Appomattox County Public Schools operates a program for four-year-old children who are at-risk for school success. Children who will be four years old by September 30, 2004 and who are identified as at-risk will be considered. Space is limited and applications will be screened to offer enrollment to those children determined to be in greatest need.

Applications for the 2004-05 school year are now available and will be received at the school board office through May 2004. For more information about this program, you may contact Dr. Dorenda Grasty at 352-8251.

Pursuant to federal regulations published at 49 Code of Federal Regulations, 1152.12(c), Norfolk Southern Railway Company hereby gives notice that it has amended its system diagram to show that it anticipates filing with the Surface Transportation Board within three years an application for authority to abandon a rail line between Burkeville, Virginia (Milepost 206.00) and Pamplin, Virginia (Milepost N169.06). The involved line lies in Nottoway, Prince Edward, Cumberland and Appomattox Counties, Virginia, and is shown on the accompanying map segment. Agency services for points on the line are handled through the Rice, Farmville and Prospect, Virginia agencies. Norfolk Southern has prepared a color-coded system diagram map showing all of the lines of its rail subsidiaries. Copies of the map are available upon request from Strategic Planning, Norfolk Southern Corporation, Three Commercial Place, Norfolk, Virginia 23510-2191.

PUBLIC NOTICE

PUBLIC NOTICE
