

ATTN: Dave Navecky -Docket No. FD35952
Surface Transportation Board
Office of Environmental Analysis
395 E. Street SW
Washington, DC 20423-0001

April 13, 2016

Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

Specific concerns are S/E Grundy Co and W/Kankakee Co. in Illinois
of which I own 3 farms in this specific area 2 in Greenfield Twp in
Grundy Co and 1 farm in KKK Co. (East Twp) on the Grundy/KKK line - And
I live in this specific area in Grundy county Ie also -

Concern this specific area used to be a "Coal Mining Area" and
has left 2 huge sportsman clubs in this area closest to my farms -
① at South Wilmington ^{Grundy Co - Ill} Sportsman Club and ② at Kankakee Co at Shannon
Shores Sportsman Club - near the Grundy - KKK line near my farm.

I understand The Coal Companies have "Undermined" our
farming area and this could be a specific Dangerous area
to run railroads every day over this "under mined" area at 110 Trains
every day. Causing Vibration impacts on this under mined
Property, roads, and Crops (De Raiment)

① Dangerous spills Waste Materials - Train upsets De Rails
these sports man clubs have seen Eagles nesting in this
area and several plants & animal habitats.
② Safety for Transportation Systems in our area - Local fire stations
Local ambulances - School Buses travel daily for 2 different School
Districts - Farmers trying to get their Crops to the elevator with Semis -
We don't need railroads to stop our today way of living in our rural
area.
