1 DANIEL R. DOWNES,  
2 being first duly sworn, testified as follows:  
3

4 EXAMINATION BY MR. RUDE

5 MR. RUDE: Q. Good morning, Mr. Downes, and  
6 thank you for coming in. You have in front of you a  
7 document which is entitled, "Notice of Oral Deposition."

8 A. Yes.

9 Q. Is that your reason for being here this  
10 morning, sir?

11 A. Yes.

12 Q. Do you have a business card?

13 A. Yes.

14 Q. If we could have a copy of it and mark it as  
15 Exhibit Number 1.

16 (PLAINTIFF'S EXHIBIT NO. CSX-1 WAS MARKED FOR  
17 IDENTIFICATION.)

18 MR. RUDE: Q. Thank you, Mr. Downes.

19 Mr. Downes, I'm looking at Exhibit Number 1, and it  
20 identifies you as director of marketing and pricing for  
21 the Hawaii/Guam service; is that correct?

22 A. Correct.

23 Q. For Horizon Lines. Can you tell me who Horizon  
24 Lines is?

25 A. Well, we're a shipping company that does

**RULE 1**  
**FUEL ADJUSTMENT FACTOR AND GENERAL RATE INCREASE PROVISIONS**  
Effective: 27Feb2000

- (#)Superseded after 25Mar2000 by future effective revision  
A. Except as otherwise provided below, or otherwise provided in this Tariff, all rates and charges shall be subject to a Fuel Adjustment Factor of 2.25%.  
To determine a rate or charge increased under the provisions of this Rule, first determine the applicable rate or charge, then increase that rate or charge by 2.25%.  
To arrive at such increased rate or charge, multiply rate or charge by 1.0225. Where rates are in cents or in dollars and cents, fraction of 1/2 cent or more will be increased to the next whole cent. Fractions of less than 1/2 cent will be dropped. Where rates are in Dollars, fractions of 1/2 dollars or more will be increased to the next whole dollar. Fractions of less than 1/2 dollar will be dropped.  
(1)Provisions of this Rule will not apply to the following:  
(1) Rules 500, 504, 505, 560, 568, 572, 820,  
(1) 910, 911, 915 and 998.  
(1)B. The Surface Transportation Board and users of this Tariff are hereby given notice of a General Rate Increase to the rates and charges in this Tariff, to become effective (1)FEBRUARY 20, 2000.  
(1)Provisions are as follows:  
(Continued in next column)
- (Continued from preceding column)  
(1)1. Rates and Charges in Sections 02, 03 and 08 of this Tariff are increased by: 3.9%.  
(1)2. Rates and Charges in Section 05 of this Tariff are increased by: 3.7%.  
(1)3. Rates and Charges in Sections 04, 06, 07, 09 and 10 of this Tariff are increased by: 3.6%.  
(1)4. Exempted from this General Rate Increase are:  
(1) A. Rules Section (Rules 1 through 998)  
(1) B. Items as follows:

(1) 1098-11-9001

**RULE 1**  
**FUEL ADJUSTMENT FACTOR AND GENERAL RATE INCREASE PROVISIONS**  
Effective: 26Mar2000 (A)

- A. Except as otherwise provided below, or otherwise provided in this Tariff, all rates and charges shall be subject to a Fuel Adjustment Factor of 3.25%.  
To determine a rate or charge increased under the provisions of this Rule, first determine the applicable rate or charge, then increase that rate or charge by 3.25%.  
To arrive at such increased rate or charge, multiply rate or charge by 1.0325. Where rates are in cents or in dollars (Continued in next column)
- (Continued from preceding column)  
and cents, fraction of 1/2 cent or more will be increased to the next whole cent. Fractions of less than 1/2 cent will be dropped. Where rates are in Dollars, fractions of 1/2 dollars or more will be increased to the next whole dollar. Fractions of less than 1/2 dollar will be dropped.  
Provisions of this Rule will not apply to the following:  
Rules 500, 504, 505, 560, 568, 572, 820,  
910, 911, 915 and 998.

| The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.                                                                                                                                                                                                                                                                                                                         | (1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.                                                                                                                                                                              |                                            |
| 4. CHASSIS                                                                                                                                                                                                                                                                                                                                                                                                                                      | 10. FLAT OR FIXED CHARGE PER CONTAINER                                                                                                                                                                                                                                                                                                                                                        |                                            |
| Chassis means a wheeled frame designed to carry demountable containers.                                                                                                                                                                                                                                                                                                                                                                         | A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.                                                                                                                                                                                                                                                   |                                            |
| 5. CONTAINER                                                                                                                                                                                                                                                                                                                                                                                                                                    | 11. HOLIDAYS                                                                                                                                                                                                                                                                                                                                                                                  |                                            |
| A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off SLS vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "SLS Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules. | Holidays means the day on which New Years Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Veterans Day; Thanksgiving Day and Christmas Day is officially observed. Within California, Admission Day is also a Holiday. Within Hawaii, the day on which Kamehameha Day, Discoverer's Day, Harry Bridges Day, and Jack Hall Day are officially observed shall also be Holidays. |                                            |
| 6. CONTAINER FREIGHT STATION (CFS)                                                                                                                                                                                                                                                                                                                                                                                                              | (#)                                                                                                                                                                                                                                                                                                                                                                                           |                                            |
| The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by SLS from container for delivery in Hawaii.                                                                                                                                                                                                                                                               | (#)                                                                                                                                                                                                                                                                                                                                                                                           |                                            |

| SECTION 2 - TARIFF RULES                                    | CORR: 14278 | Issue: 09Feb1998   Effective: 09Feb1998EAM |

RULE 110 - DEFINITION OF TECHNICAL TERMS (Continued )  
(Continuation of item Eff: 09Feb1998) (R)

(Continued from preceding column)

- (1) one container, tendered by one Shipper on one  
(1) shipping document at one point of origin at one  
(1) time for one Consignee at one point of destination.

D. The term container as used in Paragraphs (A) through (C) above, means the size container furnished by Carrier or Shipper.

- B. A quantity of goods exceeding the capacity of one container, to be loaded by Carrier, tendered by one Shipper during one working day on one shipping document at one Point of Origin for one Consignee at one Point of Destination.

26. TON

Means 2,000 lbs.

27. VEHICLE

Means a container and chassis, or combination thereof.

- C. A quantity of goods exceeding the capacity of one container, loaded by Shipper when tendered by one Shipper during one or more but not to exceed five successive working days, on one shipping document, at one Point of Origin for one consignee at one Point of Destination: provided that all containers in the shipment must be tendered sufficiently in advance to permit all to be loaded on board the vessel or vessels for which the shipment is booked.

28. WORKING DAY

That period of each calendar day, except Saturdays, Sundays or Holidays, from 8:00 a.m. to 5:00 p.m.

CARRIER</p> <p>Carrier means Sea-Land Service, Inc. or any other Participating Carrier.</p>                                                                                                                                                                                                                                                                                                                                                                          |  | <p>A. For freight tendered at CFS or in a closed container at CY: 39 Feet 5 Inches in length, 7 Feet 6 Inches in width, or 7 Feet 5 Inches in height.</p>                                                                                                                                                                                                                                                                                                                                                                                           |                                            |
| <p>3. CHARGE</p> <p>The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.</p>                                                                                                                                                                                                                                                                                                                            |  | <p>B. For freight tendered on a Flatrack Container at CY: 39 Feet 11 inches in length, 7 Feet 11 inches in width, and 6 feet 6 inches in height. (See also Rule 780)</p>                                                                                                                                                                                                                                                                                                                                                                            |                                            |
| <p>4. CHASSIS</p> <p>Chassis means a wheeled frame designed to carry demountable containers.</p>                                                                                                                                                                                                                                                                                                                                                                           |  | <p>9. CONTAINERLOAD OR LESS-THAN-CONTAINERLOAD</p> <p>(1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.</p>                                                                                                                                                                                                                                                                          |                                            |
| <p>5. CONTAINER</p> <p>A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off SLS vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "SLS Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules.</p> |  | <p>10. FLAT OR FIXED CHARGE PER CONTAINER</p> <p>A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.</p>                                                                                                                                                                                                                                                                                                                                                    |                                            |
| <p>6. CONTAINER FREIGHT STATION (CFS)</p> <p>The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by SLS from container for delivery in Hawaii.</p>                                                                                                                                                                                                                                         |  | <p>11. HOLIDAYS</p> <p>Holidays means the day on which New Years Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Veterans Day; Thanksgiving Day and Christmas Day is officially observed. Within California, Admission Day is also a Holiday. Within Hawaii, the day on which Kamehameha Day, Discoverer's Day, Harry Bridges Day, and Jack Hall Day are officially observed shall also be Holidays.</p> <p>The term "Holiday" shall also mean any other full day designed by statute or by proclamation as a National Holiday.</p> |                                            |
| <p>7. CONTAINER YARD (CY)</p> <p>The place where loaded containers are received by mainland Participating Carriers and where loaded containers are delivered by SLS in Hawaii.</p>                                                                                                                                                                                                                                                                                         |  | <p>12. JOINT THROUGH RATE</p> <p>Means the rate from a specific point within a zone via given route to destination CY, determined by adding the base rate or charge to a zone arbitrary.</p>                                                                                                                                                                                                                                                                                                                                                        |                                            |
| (Continued in next column)                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  | (Continued)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                            |

|                                                                                                                                                                        |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                            |

| SECTION 2 - TARIFF RULES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | CORR: 21379 | Issue: 30Sep1998   Effective: 30Sep1998EAN |
| <p>RULE 110<br/>DEFINITION OF TECHNICAL TERMS<br/>Effective: 30Sep1998 (C)</p> <p>(Continued from preceding column)</p> <p>1. AND or OR</p> <p>The words "And" and "Or" are used interchangeably, and are convertible by the substitution of one for the other, as the sense may suggest or require.</p> <p>2. CARRIER</p> <p>Carrier means Sea-Land Service, Inc. or any other Participating Carrier.</p> <p>3. CHARGE</p> <p>The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.</p> <p>4. CHASSIS</p> <p>Chassis means a wheeled frame designed to carry demountable containers.</p> <p>5. CONTAINER</p> <p>A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off SLS vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "SLS Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules.</p> <p>6. CONTAINER FREIGHT STATION (CFS)</p> <p>The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by SLS from container for delivery in Hawaii.</p> <p>7. CONTAINER YARD (CY)</p> <p>The place where loaded containers are received by mainland Participating Carriers and where loaded containers are delivered by SLS in Hawaii.</p> <p>(Continued in next column)</p> <p>8. CONTAINER FREIGHT</p> <p>Except where otherwise specifically provided in a rule or individual rate item of this Tariff, the term "Container Freight" is defined as freight, no single piece or package of which exceeds the following dimensions:</p> <p>A. For freight tendered at CFS or in a closed container at CY: 39 Feet 5 Inches in length, 7 Feet 6 Inches in width, or 7 Feet 5 Inches in height.</p> <p>B. For freight tendered on a Flatrack Container at CY: 39 Feet 11 inches in length, 7 Feet 11 inches in width, and 6 feet 6 inches in height. (See also Rule 780)</p> <p>9. CONTAINERLOAD OR LESS-THAN-CONTAINERLOAD</p> <p>(1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.</p> <p>10. FLAT OR FIXED CHARGE PER CONTAINER</p> <p>A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.</p> <p>11. HOLIDAYS</p> <p>Holidays means the day on which New Years Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Veterans Day; Thanksgiving Day and Christmas Day is officially observed. Within California, Admission Day is also a Holiday. Within Hawaii, the day on which Kamehameha Day, Discoverer's Day, Harry Bridges Day, and Jack Hall Day are officially observed shall also be Holidays.</p> <p>The term "Holiday" shall also mean any other full day designed by statute or by proclamation as a National Holiday.</p> <p>(Continued)</p> |             |                                            |

| SECTION 2 - TARIFF RULES                                                                            |  | CORR: 21380                                             | Issue: 30Sep1998   Effective: 30Sep1998EAN |
| RULE 110 - DEFINITION OF TECHNICAL TERMS ( Continued )<br>(Continuation of item Eff: 30Sep1998) (C) |  | (Continued from preceding column)                       |                                            |
| (1)12. JOINT THROUGH RATE                                                                           |  | 21. REFRIGERATED CARGO                                  |                                            |
| (1) Means the rate from a specific point within a zone via                                          |  | Means cargo which, because of its inherent nature,      |                                            |
| (1) given route to destination CY, determined by adding                                             |  | will either deteriorate or be likely to deteriorate     |                                            |
| (1) the base rate or charge to a zone arbitrary.                                                    |  | unless carrier in Temperature Controlled Containers.    |                                            |
| 13. LOADING OR UNLOADING                                                                            |  | 22. SPOT OR SPOTTING                                    |                                            |
| Loading or Unloading means the physical placing of                                                  |  | Means the placement of an empty container or trailer    |                                            |
| goods into or physical removal of goods from                                                        |  | by Carrier at a storedoor location for loading by       |                                            |
| containers.                                                                                         |  | Shipper.                                                |                                            |
| 14. MINIMUM WEIGHT                                                                                  |  | 23. A. STANDARD DRY CARGO CONTAINER                     |                                            |
| As used in rate items means weight in pounds.                                                       |  | A Container other than an Insulated, Refrigerated,      |                                            |
| 15. MINIMUM CONTAINERLOAD WEIGHT                                                                    |  | Flatrack or Open Top Container. Rates can also be       |                                            |
| Except as provided in Rules 645 and 882, the highest                                                |  | shown as specifically applying on standard 20ft, 40     |                                            |
| weight published in a rate item shall be the minimum                                                |  | ft. 8'6", 40 ft. 9'6" high cube and 45 ft. high cube.   |                                            |
| containerload weight for all articles described in the                                              |  | B. STANDARD SIZE CONTAINER                              |                                            |
| item.                                                                                               |  | Means (1) a dry cargo container having an overall       |                                            |
| 16. MIXED SHIPMENT                                                                                  |  | length of 40 Feet, an overall width of eight Feet and   |                                            |
| A shipment consisting of articles described in and                                                  |  | an overall height of eight Feet, six inches, or nine    |                                            |
| rated under two or more rate items in this Tariff.                                                  |  | foot, six inches or; (2) a Refrigerated Cargo           |                                            |
| 17. ONE COMMODITY                                                                                   |  | Container having an overall length of 40 Feet, or; (3)  |                                            |
| Any or all of the articles described in any one rate                                                |  | a Flatrack Container having an overall length of 40     |                                            |
| item in this Tariff.                                                                                |  | Feet; (4) A dry container having an overall length of   |                                            |
| 18. POINT OF ORIGIN                                                                                 |  | 45 feet, an overall width of eight feet and an overall  |                                            |
| Means the precise location at which goods are                                                       |  | height of nine feet six inches.                         |                                            |
| physically received by Carrier for transportation.                                                  |  | C. NON-STANDARD SIZE CONTAINER                          |                                            |
| 19. POINT OF DESTINATION                                                                            |  | Means a container with specifications other than as     |                                            |
| Means the precise location at which goods are                                                       |  | described above.                                        |                                            |
| delivered in accordance with the Bill of Lading.                                                    |  | 24. STRAIGHT SHIPMENT                                   |                                            |
| 20. RATE                                                                                            |  | A shipment consisting of articles all of which are      |                                            |
| Means the price per stated unit for the service                                                     |  | described in and rated under one specific rate item in  |                                            |
| offered under the rate.                                                                             |  | this Tariff.                                            |                                            |

| SECTION 2 - TARIFF RULES                                    |         | CORR: 31341         | Issue: 11Aug1999   Effective: 11Aug1999EAN |

RULE 110  
DEFINITION OF TECHNICAL TERMS  
Effective: 11Aug1999 (C)

(Continued from preceding column)

1. AND or OR

The words "And" and "Or" are used interchangeably, and are convertible by the substitution of one for the other, as the sense may suggest or require.

2. CARRIER

Carrier means Sea-Land Service, Inc. or any other Participating Carrier.

3. CHARGE

The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.

4. CHASSIS

Chassis means a wheeled frame designed to carry demountable containers.

5. CONTAINER

A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off SLS vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "SLS Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules.

6. CONTAINER FREIGHT STATION (CFS)

The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by SLS from container for delivery in Hawaii.

7. CONTAINER YARD (CY)

The place where loaded containers are received by mainland Participating Carriers and where loaded containers are delivered by SLS in Hawaii.

(Continued in next column)

8. CONTAINER FREIGHT

Except where otherwise specifically provided in a rule or individual rate item of this Tariff, the term "Container Freight" is defined as freight, no single piece or package of which exceeds the following dimensions:

A. For freight tendered at CFS or in a closed container at CY: 39 Feet 5 Inches in length, 7 Feet 6 Inches in width, or 7 Feet 5 Inches in height.

B. For freight tendered on a Flatrack Container at CY: 39 Feet 6 inches in length, 7 Feet 10 inches in width, and 6 feet 6 inches in height. (See also Rule 780)

9. CONTAINERLOAD OR LESS-THAN-CONTAINERLOAD

(1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.

10. FLAT OR FIXED CHARGE PER CONTAINER

A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.

11. HOLIDAYS

Holidays means the day on which New Years Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Veterans Day; Thanksgiving Day and Christmas Day is officially observed. Within California, Admission Day is also a Holiday. Within Hawaii, the day on which Kamehameha Day, Discoverer's Day, Harry Bridges Day, and Jack Hall Day are officially observed shall also be Holidays.

The term "Holiday" shall also mean any other full day designed by statute or by proclamation as a National Holiday.

RULE 110 - DEFINITION OF TECHNICAL TERMS ( Continued )  
(Continuation of item Eff: 11Aug1999) (C)

time for one Consignee at one point of destination.

B. A quantity of goods exceeding the capacity of one container, to be loaded by Carrier, tendered by one Shipper during one working day on one shipping document at one Point of Origin for one Consignee at one Point of Destination.

C. A quantity of goods exceeding the capacity of one container, loaded by Shipper when tendered by one Shipper on one shipping document, at one Point of Origin for one consignee at one Point of Destination: provided that all containers in the shipment must be tendered sufficiently in advance to permit all to be loaded on board the vessel for which the shipment is booked.

(Continued in next column)

(Continued from preceding column)

D. The term container as used in Paragraphs (A) through (C) above, means the size container furnished by Carrier or Shipper.

26. TON

Means 2,000 lbs.

27. VEHICLE

Means a container and chassis, or combination thereof.

28. WORKING DAY

That period of each calendar day, except Saturdays, Sundays or Holidays, from 8:00 a.m. to 5:00 p.m.

| RULE 110<br>DEFINITION OF TECHNICAL TERMS<br>Effective: 12Nov1999 (C) |                                                                                                                                                                                                                                                                                                                                                                                                                                                             | (Continued from preceding column)                                                                                                                                                                                                                                                                                                                                                             |
| 1. AND or OR                                                          | The words "And" and "Or" are used interchangeably, and are convertible by the substitution of one for the other, as the sense may suggest or require.                                                                                                                                                                                                                                                                                                       | 8. CONTAINER FREIGHT                                                                                                                                                                                                                                                                                                                                                                          |
| 2. CARRIER                                                            | Carrier means Sea-Land Service, Inc. or any other Participating Carrier.                                                                                                                                                                                                                                                                                                                                                                                    | Except where otherwise specifically provided in a rule or individual rate item of this Tariff, the term "Container Freight" is defined as freight, no single piece or package of which exceeds the following dimensions:                                                                                                                                                                      |
| 3. CHARGE                                                             | The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.                                                                                                                                                                                                                                                                                                                                     | A. For freight tendered at CFS or in a closed container at CY: 39 Feet 5 Inches in length, 7 Feet 6 Inches in width, or 7 Feet 5 Inches in height.                                                                                                                                                                                                                                            |
| 4. CHASSIS                                                            | Chassis means a wheeled frame designed to carry demountable containers.                                                                                                                                                                                                                                                                                                                                                                                     | B. For freight tendered on a Flatrack Container at CY: 39 Feet 6 inches in length, 7 Feet 10 inches in width, and 6 feet 6 inches in height. (See also Rule 780)                                                                                                                                                                                                                              |
| 5. CONTAINER                                                          | A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off Carrier's vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "Carrier's Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules. | 9. CONTAINERLOAD OR LESS-THAN-CONTAINERLOAD                                                                                                                                                                                                                                                                                                                                                   |
| (#)                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                             | (1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.                                                                                                                                                                              |
| (#)                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 10. FLAT OR FIXED CHARGE PER CONTAINER                                                                                                                                                                                                                                                                                                                                                        |
|                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                             | A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.                                                                                                                                                                                                                                                   |
| 6. CONTAINER FREIGHT STATION (CFS)                                    | The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by Carrier from container for delivery in Hawaii.                                                                                                                                                                                                                                                                       | 11. HOLIDAYS                                                                                                                                                                                                                                                                                                                                                                                  |

| SECTION 2 - TARIFF RULES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  | CORR: 34599 | Issue: 05Jan2000   Effective: 05Jan2000EAN |
| <p>RULE 110<br/>DEFINITION OF TECHNICAL TERMS<br/>Effective: 05Jan2000 (C)</p> <p>1. AND or OR</p> <p>The words "And" and "Or" are used interchangeably, and are convertible by the substitution of one for the other, as the sense may suggest or require.</p> <p>2. CARRIER</p> <p>(#) Carrier means Sea-Land Service, Inc. (also doing business as: CSX Lines, LLC) or any other Participating Carrier.</p> <p>3. CHARGE</p> <p>The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.</p> <p>4. CHASSIS</p> <p>Chassis means a wheeled frame designed to carry demountable containers.</p> <p>5. CONTAINER</p> <p>A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off Carrier's vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "Carrier's Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules.</p> <p>6. CONTAINER FREIGHT STATION (CFS)</p> <p>The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by Carrier from container for delivery in Hawaii.</p> <p>7. CONTAINER YARD (CY)</p> <p>The place where loaded containers are received by Mainland Participating Carriers and where loaded</p> <p>(Continued in next column)</p>                                                                                                                                                              |  |             |                                            |
| <p>(Continued from preceding column)<br/>containers are delivered by Carrier in Hawaii.</p> <p>8. CONTAINER FREIGHT</p> <p>Except where otherwise specifically provided in a rule or individual rate item of this Tariff, the term "Container Freight" is defined as freight, no single piece or package of which exceeds the following dimensions:</p> <p>A. For freight tendered at CFS or in a closed container at CY: 39 Feet 5 Inches in length, 7 Feet 6 Inches in width, or 7 Feet 5 Inches in height.</p> <p>B. For freight tendered on a Flatrack Container at CY: 39 Feet 6 inches in length, 7 Feet 10 inches in width, and 6 feet 6 inches in height. (See also Rule 780)</p> <p>9. CONTAINERLOAD OR LESS-THAN-CONTAINERLOAD</p> <p>(1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.</p> <p>10. FLAT OR FIXED CHARGE PER CONTAINER</p> <p>A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.</p> <p>11. HOLIDAYS</p> <p>Holidays means the day on which New Years Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Veterans Day; Thanksgiving Day and Christmas Day is officially observed. Within California, Admission Day is also a Holiday. Within Hawaii, the day on which Kamehameha Day, Discoverer's Day, Harry Bridges Day, and Jack Hall Day are officially observed shall also be Holidays.</p> <p>The term "Holiday" shall also mean any other full day designed by statute or by proclamation as a National</p> <p>(Continued )</p> |  |             |                                            |
| <p>(*)</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |             |                                            |

110- DEFINITION OF TECHNICAL TERMS

Filed on: 14JUN2001 Effective: 14JUN2001 Thru: Expire:

-----  
RULE TEXT

## 1. AND or OR

The words "And" and "Or" are used interchangeably, and are convertible by the substitution of one for the other, as the sense may suggest or require.

## 2. CARRIER

Carrier means CSX Lines, LLC or any other Participating Carrier.

## 3. CHARGE

The dollars and cents result of applying a rate against a stated unit, before deducting or crediting allowance, if any.

## 4. CHASSIS

Chassis means a wheeled frame designed to carry demountable containers.

## 5. CONTAINER

A unit, not less than 20 feet overall in length, designed for the intermodal transport of cargo, constructed to permit lifting on and off Carrier's vessels and requiring mounting to a chassis for movement over streets and highways. For the purpose of applying rates and rules in this Tariff, the word "Container" or "Carrier's Container" shall also mean "Trailer" except where a distinction is clearly made between the terms in rates or rules.

## 6. CONTAINER FREIGHT STATION (CFS)

The place where goods are received by Mainland Participating Carriers for loading into containers and where such goods are unloaded by Carrier from container for delivery in Hawaii.

## 7. CONTAINER YARD (CY)

The place where loaded containers are received by mainland Participating Carriers and where loaded

TARIFF RULES LISTING  
CSX LINES - TARIFF # 468Page: 2  
Date: 27MAY2002-----  
RULE TEXT  
-----

containers are delivered by Carrier in Hawaii.

## 8. CONTAINER FREIGHT

Except where otherwise specifically provided in a rule or individual rate item of this Tariff, the term "Container Freight" is defined as freight, no single piece or package of which exceeds the following dimensions:

- A. For freight tendered at CFS or in a closed container at CY: 39 Feet 5 Inches in length, 7 Feet 6 Inches in width, or 7 Feet 5 Inches in height.
- B. For freight tendered on a Flatrack Container at CY: 39 Feet 6 inches in length, 7 Feet 10 inches in width, and 6 feet 6 inches in height. (See also Rule 780)

## 9. CONTAINERLOAD OR LESS-THAN-CONTAINERLOAD

(1) Containerload (CL) means a shipment moving under a rate subject to a flat charge per container. (2) Less-than-containerload (LCL) means a shipment moving under a rate other than as specified in (1) above.

## 10. FLAT OR FIXED CHARGE PER CONTAINER

A rate which results in both a minimum and maximum charge per container for the carriage of goods described in an item naming such charges.

## 11. HOLIDAYS

Holidays means the day on which New Years Day; Presidents Day; Memorial Day; Independence Day; Labor Day; Veterans Day; Thanksgiving Day and Christmas Day is officially observed. Within California, Admission Day is also a Holiday. Within Hawaii, the day on which Kamehameha Day, Discoverer's Day, Harry Bridges Day, and Jack Hall Day are officially observed shall also be Holidays.

The term "Holiday" shall also mean any other full day designed by statute or by proclamation as a National Holiday.

## 12. JOINT THROUGH RATE

Means the rate from a specific point within a zone via given route to destination CY, determined by adding

TARIFF RULES LISTING  
CSX LINES - TARIFF # 468

Page: 3  
Date: 27MAY2002

RULE TEXT

the base rate or charge to a zone arbitrary.

13. LOADING OR UNLOADING

Loading or Unloading means the physical placing of goods into or physical removal of goods from containers.

14. MINIMUM WEIGHT

As used in rate items means weight in pounds.

15. MINIMUM CONTAINERLOAD WEIGHT

Except as provided in Rules 645 and 882, the highest weight published in a rate item shall be the minimum containerload weight for all articles described in the item.

16. MIXED SHIPMENT

A shipment consisting of articles described in and rated under two or more rate items in this Tariff.

17. ONE COMMODITY

Any or all of the articles described in any one rate item in this Tariff.

18. POINT OF ORIGIN

Means the precise location at which goods are physically received by Carrier for transportation.

19. POINT OF DESTINATION

Means the precise location at which goods are delivered in accordance with the Bill of Lading.

20. RATE

Means the price per stated unit for the service offered under the rate.

21. REFRIGERATED CARGO

Means cargo which, because of its inherent nature, will either deteriorate or be likely to deteriorate

unless carrier in Temperature Controlled Containers.

22. SPOT OR SPOTTING

800- PROPORTIONAL RATES

Filed on: 14JUN2001 Effective: 14JUN2001 Thru: Expire:

RULE TEXT

Except as otherwise provided, rates named in Subsection 5, or otherwise making reference to this Rule, are proportional, apply only on shipments having a prior or subsequent movement by an STB certified motor carrier, and apply from origin CY only and to destination CY only. Proportional shipments cannot be combined with shipments from Sections 2 or 3 for billing purposes.

**RULE 160**  
**APPLICATION OF RATES**  
**Effective: 25Jan2000 (C)**

A. This tariff contains rates and charges for joint through intermodal and all-water movements of container freight. Rates and charges named in this tariff include all charges for switching, container interchange, or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services at such intermediate points. Cargo will be transferred at Honolulu for oncarriage to port of delivery by a vessel owned by another carrier. Rates apply to Carrier's Hawaiian Terminal locations (See Rule 940B). Unless indicated in individual rate items, only rates in items 02XX-XX-XXXX, 03XX-XX-XXXX, 05XX-XX-XXXX, and 08XX-XX-XXXX, are subject to U.S. West Coast Wharfage Charges (See Rule 998A-G). All items in this tariff, unless otherwise indicated in individual rate items, are subject to Hawaii Wharfage (See Rule 998 G-H). Unless otherwise stated, the words "rate" and "charge" used in a rule or rate item in this tariff mean "Base Rate" and "Base Charge" as defined in Rule 160.

1. Carrier's Terminals (See Rule 940). Rates and Charges herein apply from these locations.
2. Storedoor Rates:  
Rates and Charges herein also apply from locations as named in Rule 340. (EXCEPTION: Where rates are specifically named from Origin Points in Subsections 06 or 07, then those specifically named rates will take precedence and may not alternate with Rates and Charges determined by application of the Zone Arbitraries in Rule 340.)

To determine the joint through rate under this Tariff from a specific storedoor location to CY at Hawaii Port:

- a. Look up the Origin Point in the list of Points From Which Rates Apply, (Inlands), and determine the zone associated with such point.
- b. Determine the Zone Arbitrary from Rule 340 and applicable Inland Tables.
- c. Determine the base rate or charge by appli-

(Continued in next column)

(Continued from preceding column)  
 ication of the appropriate commodity rate.

- d. The joint through rate comprises the sum Zone Arbitrary and the base rate or charge.
- e. The shipment is also subject to the Wharfage Charges associated with the origin zone and the Destination Port in Hawaii from Rule 998.

3. Rates also apply to/from named points in individual rate items with item numbers 04XX-XX-XXXX, 06XX-XX-XXXX, 07XX-XX-XXXX, and 09XX-XX-XXXX. Rates within these sub-sections are NOT subject to U.S. West Coast Wharfage (Rule 998 A-G), but shall be subject to Wharfage at Hawaii (See Rule 998, A-H).

4. Weight or Measure

Except as otherwise specified, rates shall be assessed on a W (Per CWT) or M (Per CFT) basis, whichever produces the greater revenue. In computing freight rates and charges two (2) decimal places should be used.

5. Except as otherwise specified, rates named in this tariff which apply to or from "door" (to include application of Zone Arbitraries from Rule 340) shall include one placement of Carrier's equipment at customer's facility for loading or unloading by Shipper/Consignee and include two hours free time. Delay of Carrier's equipment beyond the two hours free time shall be assessed Detention Charges in accordance with Rule 500.

NOTE: Where provisions of this Tariff include pick-up, delivery or placement service, Carrier will not provide such service at addresses or Zip Codes which consist solely of Post Office Boxes or Postal Stations.

B. Rates beginning with Commodity Number 08XX-XX-XXXX (Eastbound Dry Commodities) apply from CY to CY and from CFS to CY only, except as provided for in specific items.

**RULE 160 - APPLICATION OF RATES (Continued)**  
(Continuation of item Eff: 25Jan2000) (C)

(Continued from preceding column)

- C. Except as provided in Rule 160, Paragraph B and Rule 780, Restricted Articles, or in this paragraph, Shipper may tender freight for either CFS (See Rule 180) or CY service at Carrier's Mainland Terminal Locations.
- D. All rates in this tariff apply from Carrier's CY unless a specific reference is made stating the rate is from Carrier's CFS. When such a reference is made, rates from CFS apply from place of rest on floor or platform of CFS, but do not include any unloading of the delivering motor vehicle or railcar. Any such delivery unloading that is required would be performed only upon specific request and will be for the account of the requesting party.
- E. Rates for shipments to the Hawaii CFS apply to place of rest on floor or platform of CFS, and include unloading from Carrier's containers.
- F. Rates from CFS include Participating Carrier Loading to containers at the CFS. Except as provided in specific items such CFS rates include the unloading of containers at Hawaiian CFS although Shipper or Consignee may specify delivery of containers at CY under provisions of Rule 849. Rates from CY are restricted to apply only when Shipper loads the container under provisions of Rule 849, and Consignee accepts delivery at Hawaiian CY for subsequent unloading.
- G. Except as provided in Rule 710 rates which apply on a weight basis will be assessed against the gross weight of the freight, including packaging. Rates which apply on a cubic measurement basis will be assessed against the overall measurement of the three greatest outside dimensions of each piece, package or other freight unit as tendered by Shipper, except in the case of cylindrical cargo in which case the square of the diameter shall be multiplied by the length to determine cube.
- H. Except for shipments loaded by Shipper to Flatrack Containers, or to Temperature Controlled Containers or as provided in specific items, shipments of articles for which per container rates are published will be subject to the Cargo, NOS rates applied to the total shipment, if by such application the total freight charges can be reduced.

(Continued in next column)

- I. Except for shipments loaded by Shipper in dry containers of any type, or to Flatrack Containers, (Refrigerated cargo is excluded from this portion of Rule 160), or as provided in specific items, when a straight shipment of a commodity or commodities described in one rate item weighs less than the minimum weight published for that item, or when a mixed shipment of commodities described in two or more rate items weighs less than the highest minimum weight published for any of the items, then the Cargo, NOS rates will apply if by such application the total freight charges can be reduced.
- J. Packages containing different articles will be charged at the rate applicable to the highest rated article in the package. Articles which have been combined or attached to each other will be charged at the rate applicable to the highest rated article of the combination. Parts or pieces constituting a complete article, on one bill of lading will be charged at the rate provided for the complete article. When different rates are published for an article according to type or method of packaging, the type and packaging must be described by Shipper. In the absence of such description, the highest rate for any of the types or method of packaging will be assessed.
- K. Commodity rates are specific and will not apply on analogous articles.
- L. At Carrier's option, a shipment received at a Mainland Terminal may be transported via any Carrier Pacific Coast vessel port of loading with any related additional costs being for the account of the Participating Carrier.
- M. Rates in Sub-Section 2 will not apply on shipments tendered for transportation in Temperature Controlled Containers. Rates with Commodity Numbers 02XX-XX-XXXX or 05XX-XX-XXXX will apply on shipments tendered for transportation in Carrier's 40 Foot Insulated Containers subject to a Surcharge as set forth in Rule 810.
- N. Except as otherwise provided in individual rate items, rates with Commodity Numbers 03XX-XX-XXXX will apply only on Refrigerated Cargo, as defined in Rule 835, when such cargo is tendered for transportation in

| SECTION 2 - TARIFF RULES                                    | CORR: 35020 | Issue: 25Jan2000   Effective: 25Jan2000EAN |

RULE 160 - APPLICATION OF RATES (Continued)  
(Continuation of item Eff: 25Jan2000) (C)

(1) Temperature Controlled Containers.

- O. Except as indicated in Paragraph A.3 above, rates in this tariff do not include Wharfage Charges. (See Rule 998 herein).
- P. Cargo ratable under this Tariff is subject to the weight limitations in Rule 520, the requirements for safe loading of equipment in Rule 886, and the provisions for the use of containers in Rule 884, the provisions for the use of flatrack equipment in Rule 563, and which meets all other qualifications and provisions of this Tariff.
- Q. In the absence of a specific rate for cargo in 20 ft. containers, the rate will be calculated. In the case of per container rates at 80% of the 40 ft. rate rounded upwards to the nearest dollar and in the case of weight rates, at the same rate but at 80% of the minimum weight requirement, if any.
- R. Advertising Matter shipped with the goods it advertises, in the same package as the goods or in separate packages, and not exceeding 5% of total weight of the container, will be charged at the rate applicable to such goods.
- S. Shipping weights or measurements and descriptions shown on bills of lading by Shippers are subject to checking by Carrier, and the actual weight, cubic measurement and descriptions of the shipment as determined by Carrier will govern the application or description of rates.  
(See also Rule 572, Misdescription of Cargo)
- T. Carrier is not required under rates named in this Tariff to furnish special handling equipment, such as platform vehicles, winches, cranes, rigging and other special equipment to load shipments into containers and unload shipments from containers. Carrier may provide such equipment by special arrangement. Skid boards, rollers, or pinch bars shall be furnished by Carrier without charge.
- U. If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) and does not contain a PC rate for a 40-foot High-Cube dry container (40B), but does contain a PC rate for a 40-foot standard container (40), then the PC rate

(Continued in next column)

- (Continued from preceding column)
- applicable to a 45-foot container (45B) will be 126.6 percent of the 40' (standard) rate.
- If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a PC rate for a 40-foot High Cube (40B), then the PC rate applicable to a 45-foot container (45B) shall be 114.05% of the 40 High Cube (40B) rate.
- If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a 40 (40) rate AND a 40-foot High Cube (40B) rate AND the rates in the item are the same rate for both the 40 and the 40B, then the 45' (45B) rate shall be 126.6% of the 40/40B rate.
- If a rate item does not contain a specific M basis rate for a 45-foot dry container (45B) but does contain a rate for a 40-foot standard container (40) then the rate applicable to the 45' (45B) container shall be the same as the 40 rate and the applicable minimum cubic foot volume requirement for the 45-foot container (45B) will be 126.6 percent of the minimum requirement for the 40 rate shown in the item.
- If a rate item contains a weight rate and has a minimum weight requirement for a 40 foot container, but does not have a high cube 40 minimum (40B), the minimum applicable to the 40 foot container will also apply on the 40B foot container at the 40 ft. rate level.
- If an item contains a weight rate and has a minimum weight requirement for a 40 ft. container, but does not have a 45 ft. minimum, then the minimum applicable to a 45 ft. container will be the same as the 40 ft. minimum. If the item contains both a standard 40 ft. minimum and a high-cube 40 ft. minimum, but does not have a 45 ft. minimum, then the minimum applicable to the 45 ft. container will be the same as for the high-cube 40 ft. container.
- V. Applicable on shipments moving in other than refrigerated containers.
- If a rate item does not contain a specific container (PC) rate for a 40-Foot High Cube (40B) container but does contain a rate for a 40-Foot (40) standard container, then the PC rate applicable for a 40B container will be 112.55 percent of the 40 (standard) PC rate rounded to the nearest whole dollar.
- If a rate item does not contain a specific rate M basis

TARIFF CSX LINES, LLC - STB CSXL-468 (BETWEEN US, PR, CN, & HI)

RULE# CYC# APP TITLE

160- APPLICATION OF RATES  
Filed on: 10SEP2001 Effective: 19SEP2001 Thru: Expire:

RULE TEXT

A. This tariff contains rates and charges for joint through intermodal and all-water movements of container freight. Rates and charges named in this tariff include all charges for switching, container interchange, or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services at such intermediate points. Cargo will be transferred at Honolulu for oncarriage to port of delivery by a vessel owned by another carrier. Rates apply to Carrier's Hawaiian Terminal locations (See Rule 940B). Unless indicated in individual rate items, only rates in Items 02XX-XX-XXXX, 03XX-XX-XXXX, 05XX-XX-XXXX, and 08XX-XX-XXXX, are subject to U.S. West Coast Wharfage Charges (See Rule 998A-G). All Items in this tariff, unless otherwise indicated in individual rate items, are subject to Hawaii Wharfage (See Rule 998 G-H). Unless otherwise stated, the words "rate" and "charge" used in a rule or rate item in this tariff mean "Base Rate" and "Base Charge" as defined in Rule 160.

1. Carrier's Terminals (See Rule 940). Rates and Charges herein apply from these locations.
2. Storedoor Rates:  
Rates and Charges herein also apply from locations as named in Rule 340. (EXCEPTION: Where rates are specifically named from Origin Points in Subsections 06 or 07, then those specifically named rates will take precedence and may not alternate with Rates and Charges determined by application of the Zone Arbitraries in Rule 340.)

To determine the joint through rate under this Tariff from a specific storedoor location to CY at Hawaii Port:

- a. Look up the Origin Point in the list of Points From Which Rates Apply, (Inlands), and determine the zone associated with such point.
- b. Determine the Zone Arbitrary from Rule 340 and applicable Inland Tables.

CSX-04367

TARIFF RULES LISTING  
CSX LINES - TARIFF # 468

Page: 2  
Date: 08MAY2002

RULE TEXT

- c. Determine the base rate or charge by application of the appropriate commodity rate.
- d. The joint through rate comprises the sum Zone Arbitrary and the base rate or charge.
- e. The shipment is also subject to the Wharfage Charges associated with the origin zone and the Destination Port in Hawaii from Rule 998.
- 3. Rates also apply to/from named points in individual rate items with item numbers 04XX-XX-XXXX, 06XX-XX-XXXX, 07XX-XX-XXXX, and 09XX-XX-XXXX. Rates within these sub-sections are NOT subject to U.S. West Coast Wharfage (Rule 998 A-G), but shall be subject to Wharfage at Hawaii (See Rule 998, A-H).

4. Weight or Measure

Except as otherwise specified, rates shall be assessed on a W (Per CWT) or M (Per CFT) basis, whichever produces the greater revenue. In computing freight rates and charges two (2) decimal places should be used.

- 5. Except as otherwise specified, rates named in this tariff which apply to or from "door" (to include application of Zone Arbitraries from Rule 340) shall include one placement of Carrier's equipment at customer's facility for loading or unloading by Shipper/Consignee and include two hours free time. Delay of Carrier's equipment beyond the two hours free time shall be assessed Detention Charges in accordance with Rule 500.

NOTE: Where provisions of this Tariff include pick-up, delivery or placement service, Carrier will not provide such service at addresses or Zip Codes which consist solely of Post Office Boxes or Postal Stations.

- B. Rates beginning with Commodity Number 08XX-XX-XXXX (Eastbound Dry Commodities) apply from CY to CY and from CFS to CY only, except as provided for in specific items.
- C. Except as provided in Rule 160, Paragraph B and Rule 780, Restricted Articles, or in this paragraph, Shipper may tender freight for either CFS (See Rule 180) or CY service at Carrier's Mainland Terminal Locations.

-----  
 RULE TEXT  
 -----

- D. All rates in this tariff apply from Carrier's CY unless a specific reference is made stating the rate is from Carrier's CFS. When such a reference is made, rates from CFS apply from place of rest on floor or platform of CFS, but do not include any unloading of the delivering motor vehicle or railcar. Any such delivery unloading that is required would be performed only upon specific request and will be for the account of the requesting party.
- E. Rates for shipments to the Hawaii CFS apply to place of rest on floor or platform of CFS, and include unloading from Carrier's containers.
- F. Rates from CFS include Participating Carrier Loading to containers at the CFS. Except as provided in specific Items such CFS rates include the unloading of containers at Hawaiian CFS although Shipper or Consignee may specify delivery of containers at CY under provisions of Rule 849. Rates from CY are restricted to apply only when Shipper loads the container under provisions of Rule 849, and Consignee accepts delivery at Hawaiian CY for subsequent unloading.
- G. Except as provided in Rule 710 rates which apply on a weight basis will be assessed against the gross weight of the freight, including packaging. Rates which apply on a cubic measurement basis will be assessed against the overall measurement of the three greatest outside dimensions of each piece, package or other freight unit as tendered by Shipper, except in the case of cylindrical cargo in which case the square of the diameter shall be multiplied by the length to determine cube.
- H. Except for shipments loaded by Shipper to Flatrack Containers, or to Temperature Controlled Containers or as provided in specific items, shipments of articles for which per container rates are published will be subject to the Cargo, NOS rates applied to the total shipment, if by such application the total freight charges can be reduced.
- I. Except for shipments loaded by Shipper in dry containers of any type, or to Flatrack Containers, (Refrigerated cargo is excluded from this portion of Rule 160), or as provided in specific items, when a straight shipment of a commodity or commodities described in one rate item weighs less than the minimum weight published for that item, or when a

 RULE TEXT
 

---

mixed shipment of commodities described in two or more rate items weighs less than the highest minimum weight published for any of the items, then the Cargo, NOS rates will apply if by such application the total freight charges can be reduced.

- J. Packages containing different articles will be charged at the rate applicable to the highest rated article in the package. Articles which have been combined or attached to each other will be charged at the rate applicable to the highest rated article of the combination. Parts or pieces constituting a complete article, on one bill of lading will be charged at the rate provided for the complete article. When different rates are published for an article according to type or method of packaging, the type and packaging must be described by Shipper. In the absence of such description, the highest rate for any of the types or method of packaging will be assessed.
- K. Commodity rates are specific and will not apply on analogous articles.
- L. At Carrier's option, a shipment received at a Mainland Terminal may be transported via any Carrier Pacific Coast vessel port of loading with any related additional costs being for the account of the Participating Carrier.
- M. Rates in Sub-Section 2 will not apply on shipments tendered for transportation in Temperature Controlled Containers. Rates with Commodity Numbers 02XX-XX-XXXX or 05XX-XX-XXXX will apply on shipments tendered for transportation in Carrier's 40 Foot Insulated Containers subject to a Surcharge as set forth in Rule 810.
- N. Except as otherwise provided in individual rate items, rates with Commodity Numbers 03XX-XX-XXXX will apply only on Refrigerated Cargo, as defined in Rule 835, when such cargo is tendered for transportation in Temperature Controlled Containers.
- O. Except as indicated in Paragraph A.3 above, rates in this tariff do not include Wharfage Charges. (See Rule 998 herein).
- P. Cargo ratable under this Tariff is subject to the weight limitations in Rule 520, the requirements for safe loading of equipment in Rule 886, and the provisions for the use of containers in Rule 884, the provisions for the use of flatrack equipment in

Rule 563, and which meets all other qualifications and provisions of this Tariff.

- Q. The following provisions apply only on Items in Section 02 (ie: Item numbers: 02XX-XX-XXXX):

In the absence of a specific rate for cargo tendered in a 20' container and where there is a 40' per container rate or a weight rate with a 40' minimum, the following calculations will be used to determine the rate for the cargo in the 20' container:

- The 20' container rate shall be 80% of the 40' container rate rounded upwards to the nearest whole dollar or a minimum ocean freight revenue of \$1800.00 per container, whichever is greater.
- The 20' weight rate shall be at the 40' weight rate but with a minimum weight requirement that is 80% of the 40' requirement or a minimum ocean freight revenue of \$1800.00 per container, whichever is higher.

- R. Advertising Matter shipped with the goods it advertises, in the same package as the goods or in separate packages, and not exceeding 5% of total weight of the container, will be charged at the rate applicable to such goods.
- S. Shipping weights or measurements and descriptions shown on bills of lading by Shippers are subject to checking by Carrier, and the actual weight, cubic measurement and descriptions of the shipment as determined by Carrier will govern the application or description of rates.  
(See also Rule 572, Misdescription of Cargo)
- T. Carrier is not required under rates named in this Tariff to furnish special handling equipment, such as platform vehicles, winches, cranes, rigging and other special equipment to load shipments into containers and unload shipments from containers. Carrier may provide such equipment by special arrangement. Skid boards, rollers, or pinch bars shall be furnished by Carrier without charge.
- U. If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) and does not contain a PC rate for a 40-foot High-Cube dry container (40B), but does contain a PC rate for a 40-foot standard container (40), then the PC rate applicable to a 45-foot container (45B) will be 126.6 percent of the 40' (standard) rate.

CSX-04371

-----  
RULE TEXT  
-----

If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B)

but does contain a PC rate for a 40-foot High Cube (40B), then the PC rate applicable to a 45-foot container (45B) shall be 114.05% of the 40 High Cube (40B) rate.

If a rate item does not contain a specific per container (PC) rate for a 45-foot dry container (45B) but does contain a 40 (40) rate AND a 40-foot High Cube (40B) rate AND the rates in the Item are the same rate for both the 40 and the 40B, then the 45' (45B) rate shall be 126.6% of the 40/40B rate.

If a rate item does not contain a specific M basis rate for a 45-foot dry container (45B) but does contain a rate for a 40-foot standard container (40) then the rate applicable to the 45' (45B) container shall be the same as the 40 rate and the applicable minimum cubic foot volume requirement for the 45-foot container (45B) will be 126.6 percent of the minimum requirement for the 40 rate shown in the Item.

If a rate item contains a weight rate and has a minimum weight requirement for a 40 foot container, but does not have a high cube 40 minimum (40B), the minimum applicable to the 40 foot container will also apply on the 40B foot container at the 40 ft. rate level.

If an Item contains a weight rate and has a minimum weight requirement for a 40 ft. container, but does not have a 45 ft. minimum, then the minimum applicable to a 45 ft. container will be the same as the 40 ft. minimum. If the Item contains both a standard 40 ft. minimum and a high-cube 40 ft. minimum, but does not have a 45 ft. minimum, then the minimum applicable to the 45 ft. container will be the same as for the high-cube 40 ft. container.

V. Applicable on shipments moving in other than refrigerated containers:

If a rate item does not contain a specific container (PC) rate for a 40-Foot High Cube (40B) container but does contain a rate for a 40-Foot (40) standard container, then the PC rate applicable for a 40B container will be 112.55 percent of the 40 (standard) PC rate rounded to the nearest whole dollar.

If a rate item does not contain a specific rate M basis for a 40 foot Hi-Cube (40B) container but does contain a rate for a 40-foot standard container (40), then the rate applicable to a 40B will be the 40A rate and the applicable minimum cubic foot volume requirement for the 40B will be 112.55 percent of the

TARIFF RULES LISTING

RULE TEXT

40 cubic foot minimum volume requirement shown in the rate item.  
Applicable only on shipments moving in refrigerated containers:

CSX-04372

If a rate item does not contain a specific container (PC) rate for a high-cube 40-ft. refrigerated container (40RB), but does contain a rate for a standard 40-ft. refrigerated container (40R), the applicable rate for the 40RB refrigerated container shall be the same as that for the 40R refrigerated container.

- W. Container cargo means that which safely can be loaded to containers including flatracks, provided the piece or package loaded does not extend beyond the perimeter of the equipment used. Non-containerizable cargo, or oversized cargo loaded on flatracks or platforms where the piece or package loaded exceeds the perimeter of the equipment used, may be accepted subject to prior booking arrangements. Except as noted under a specific tariff item, such cargo shall move at the "CARGO, NOS" rate Items.
- X. Rates named in this tariff will apply to Lanai only on non-refrigerated cargo. Rates named in this Tariff will not apply nor will shipments be accepted to Lanai except when consigned for delivery at CY. Each such container shall be rated as a separate shipment and Rule 882 (Overflow) will not apply. The minimum charge for each container consigned for delivery to Lanai shall be as provided in Rule 610.
- Y. Notes Within Items - NOTES are not separate commodity Items. In order to apply provisions of NOTES, the shipment must contain the commodity described in the Item where the NOTE(s) occurs.
- Z. RATES ON PARTS  
Unless otherwise provided in individual commodity items, the rates provided herein also apply on the named parts of the articles described in the tariff item.
- AA. In the absence of a specific rate for cargo moving from Hawaii to West Coast Ports in Sub-section 08 of this Tariff, the applicable specific commodity rate to Hawaii as published in Sub-sections 02, 03, or 05 of this Tariff will be applied if, by such application, the total freight charges are less than those which would otherwise be applicable by use of the Cargo, NOS, rate published in Sub-section 08. Provisions of this paragraph are applicable only on cargo to Ports of Long

WHARFAGE  
Effective: 15Nov1999

Wharfage rates may be found in the following Sub-rules. Generally, Wharfage charges will be assessed at the Cargo, NOS levels. Exceptions will occur when a specific Commodity Description is shown in the applicable terminal location, and then the Wharfage rates, as indicated, will apply.

EXCEPTION: Rates to or from named points as published in the following sub-sections of this tariff are not subject to West Coast (Long Beach, Oakland or Tacoma) Wharfage (Continued in next column)

(Continued from preceding column)  
Charges. Except as otherwise provided, rates published in the following sub-sections are subject to Hawaiian Wharfage Charges:

Sub-section 04 (from Puerto Rico to Hawaii)  
Sub-section 06 (from U.S. & Canada Points to Hawaii)  
Sub-section 07 (from U.S. & Canada Points to Hawaii)  
Sub-section 09 (from Hawaii to U.S. & Canada Points)  
Sub-section 10 (from Hawaii to Puerto Rico)

RULE# CYC# APP TITLE

645- MIXED SHIPMENTS  
Filed on: 01APR1997 Effective: 02APR1997 Thru: Expire: 12SEP1998

RULE TEXT

- A. Two or more articles rated on a weight basis may be included in one container as a mixed shipment except as provided in an individual rate item and will be assessed a freight charge equal to:
1. Subject to paragraph A.2 of this rule, and except as provided in an individual rate item, each article in a mixed shipment shall be rated separately on the basis of the total weight within the container. The minimum weight of the shipment shall be the minimum weight of the predominant commodity by weight provided for any of the rates used in computing the charges. Any deficiency between the actual weight of the shipment and the applicable minimum weight shall be charged for at the rate applicable to the weight of the predominant commodity by weight in the container.
  2. The total weight of a mixed shipment consisting of both non-refrigerated and refrigerated cargo will not be used to determine applicable rates. The rates with Commodity Numbers 02XX-XX-XXXX and 03XX-XX-XXXX will be assessed based only upon the weight of the cargo to be rated under these Commodity Numbers.
- B. Two or more articles rated on a per container basis may be included in one container as a mixed shipment except as provided in an individual rate item and will be assessed a freight charge equal to:
1. Except as provided in an individual rate item, the highest of those rates for the commodities in the mixed containerload.
- C. Two or more articles with one or more rated on a weight basis and one or more rated on a per container basis may be included in one container except as provided in an individual item and will be assessed a freight charge equal to the higher of 1 or 2 below, unless 3 below results in a lower freight charge.
1. The highest of the applicable per-container rates, or

CSX-04141

SEA-LAND SERVICE INC - TARIFF # 468

Date: 12APR2002

RULE TEXT

2. The highest charge for a containerload of any weight-rated commodity in the mixed containerload, computed on the basis of the minimum weight associated with such rate or the actual weight of the commodity if greater.
3. If the charge for the mixed containerload can be reduced by so doing, an alternation will be allowed whereby one or more of the articles rated on a weight basis may be rated pursuant to paragraph A above and the articles rated on a per-container basis may be rated at \$2.25 per cubic foot or \$6.06 per CWT, whichever produces the greater revenue for dry cargo (other than dangerous cargo), \$4.24 per cubic foot or \$9.31 per CWT, whichever produces the greater revenue for dangerous cargo and \$2.87 per cubic foot or \$14.22 per CWT, whichever produces the greater revenue for refrigerated cargo. If cube is not provided, a rate of \$42.21 per CWT for dry cargo (other than dangerous cargo), \$70.86/ CWT for dangerous cargo, and \$22.34 per CWT for refrigerated cargo will be applied. The minimum weight provision in A. above will apply.
- D. Two or more articles rated on a CFT basis may be included in one container as a mixed shipment. Each article shall be rated separately on the basis of its actual cube at its given CFT rate.

In the event deficit cube exists, such deficit shall be charged at the CFT rate applicable to the predominant commodity by cube in the container.

In the event articles which are Per Container or CWT rated are included in the mixed shipment, the provisions of this paragraph shall be disallowed and otherwise applicable rates shall be applied.

The provisions of this paragraph only apply in conjunction with mixed shipments of articles described in Items 0244-01-0002, 0244-18-2001 and 0273-08-3500.
- E. Unless specifically permitted in an individual rate item, the provisions of this rule will not apply to shipments in tank containers.

RULE TEXT

- A. Two or more articles rated on a weight basis may be included in one container as a mixed shipment except as provided in an individual rate item and will be assessed a freight charge equal to:
1. Subject to paragraph A.2 of this Rule, and except as provided in an individual rate item, each article in a mixed shipment shall be rated separately on the basis of the total weight within the container. The minimum weight of the shipment shall be the minimum weight of the predominant commodity by weight provided for any of the rates used in computing the charges. Any deficiency between the actual weight of the shipment and the applicable minimum weight shall be charged for at the rate applicable to the weight of the predominant commodity by weight in the container.
  2. The total weight of a mixed shipment consisting of both non-refrigerated and refrigerated cargo will not be used to determine applicable rates. The rates with Commodity Numbers 02XX-XX-XXXX and 03XX-XX-XXXX will be assessed based only upon the weight of the cargo to be rated under these Commodity Numbers.
  3. In the event a mixed shipment of weight-rated commodities includes one or more commodities for which the rate(s) is inclusive of West Coast Wharfage and/or Hawaii Wharfage and one or more commodities for which the rate(s) is subject to West Coast and Hawaii Wharfage (per Rule 998), determination of applicability of wharfages is as follows:  
The total cargo weight of commodities for which the rate(s) is inclusive of West Coast and/or Hawaii Wharfage is compared to the total cargo weight of commodities for which the rate(s) is subject to West Coast and Hawaii Wharfage, with the preponderant total determining wharfage applicability. If the total cargo weight of commodities for which the rate(s) is inclusive of West Coast and/or Hawaii Wharfage is greater than the total cargo weight of commodities for which the rate(s) is subject to West

RULE# CYC# APP TITLE

882- 15 0 SHIPMENTS EXCEEDING THE CAPACITY OF ONE CONTAINER (OVERFLOW)  
Filed on: 30JAN1997 Effective: 09FEB1997 Thru: Expire: 12SEP1998

RULE TEXT

Unless otherwise specifically provided in individual commodity rate items in this tariff, the provisions of this Rule are applicable only on Non-refrigerated cargo moving in closed 40-ft. standard; 40-ft. high-cube; or 45-ft. containers, rated from West Coast Ports only (for shipments to Hawaii), or rated to the Ports of Long Beach or Oakland only (for shipments from Hawaii).

Cargo must be rated on either a Weight or Measure basis or, if in a mixed shipment, under the provisions of either paragraph A or C of Rule 645.

- A. When a single shipment exceeds the capacity of one container the following provisions will apply:  
(Applies only on dry cargo.)
1. Each container, except the last, must be loaded as fully as the character of the freight and other conditions permit, so that no more of the same shipment can be loaded safely therein.
  2. Each container, except the last, will be rated as it is a separate shipment.
  3. The charges on the excess or "overflow" cargo in the last container will be assessed at the applicable rate for each article; subject, however, to a Minimum Charge for shipments to Hawaii for the last container of  
\$1354 Per 20' container,  
\$1891 per 40' standard container,  
\$2246 per 40' high cube container and  
\$2640 per 45' container.  
Shipments from Hawaii are not subject to these minimum charges for the overflow container.
- B. (Reserved for Future Use)
- C. Shipper must specify on bill of lading which container is to be considered the lead container and which is to be considered the overflow.
- D. Not applicable on shipments moving in Refrigerated Containers, Bulk Tanks, Flatbed Containers, or Open-top Containers. Twenty (20-ft) closed

Date: 21MAR2002

TARIFF FREIGHT TARIFF NO 468, STB SEAU-468 (BETWEEN US, PR, CN, & HI)

RULE# CYC# APP TITLE

882- 15 0 SHIPMENTS EXCEEDING THE CAPACITY OF ONE CONTAINER (OVERFLOW)  
Filed on: 21SEP1999 Effective: 17OCT1999 Thru: Expire: 14NOV1999

RULE TEXT

Unless otherwise specifically provided in individual commodity rate items in this tariff, the provisions of this Rule are applicable only on Non-refrigerated cargo moving in closed 40-ft. standard; 40-ft. high-cube; or 45-ft. containers, rated from West Coast Ports only (for shipments to Hawaii), or rated to the Ports of Long Beach or Oakland only (for shipments from Hawaii).

Cargo must be rated on either a Weight or Measure basis or, if in a mixed shipment, under the provisions of either paragraph A or C of Rule 645.

- A. When a single shipment exceeds the capacity of one container the following provisions will apply:  
(Applies only on dry cargo.)
1. Each container, except the last, must be loaded as fully as the character of the freight and other conditions permit, so that no more of the same shipment can be loaded safely therein.
  2. Each container, except the last, will be rated as it is a separate shipment.
  3. The charges on the excess or "overflow" cargo in the last container will be assessed at the applicable rate for each article; subject, however, to a Minimum Charge for shipments to Hawaii for the last container of  
 \$1600 Per 20' container,  
 \$2236 per 40' standard container,  
 \$2656 per 40' high cube container and  
 \$3121 per 45' container.  
 Shipments from Hawaii are not subject to these minimum charges for the overflow container.
- B. (Reserved for Future Use)
- C. Shipper must specify on bill of lading which container is to be considered the lead container and which is to be considered the overflow.
- D. Not applicable on shipments moving in Refrigerated Containers, Bulk Tanks, Flatbed Containers, or Open-top Containers. Twenty (20-ft) closed

**RULE 882**  
**SHIPMENTS EXCEEDING THE CAPACITY OF ONE CONTAINER (OVERFLOW)**  
Effective: 15Nov1999 (C)

Unless otherwise specifically provided in individual commodity rate items in this Tariff, the provisions of this Rule are applicable only on non-refrigerated cargo moving in closed 40-ft. standard; 40-ft. high-cube; or 45-ft. containers, rated from West Coast Ports only (for shipments to Hawaii), or rated to the Ports of Long Beach or Oakland only (for shipments from Hawaii).

Cargo must be rated on either a Weight or Measure basis or, if in a mixed shipment, under the provisions of either paragraph A or C of Rule 645.

A. When a single shipment exceeds the capacity of one container the following provisions will apply:  
( Applies only on dry cargo.)

1. Each container, except the last, must be loaded as fully as the character of the freight and other conditions permit, so that no more of the same shipment can be loaded safely therein. (#)
2. Each container, except the last, will be rated as if it is a separate shipment. (#)
3. The charges on the excess or "overflow" cargo in the last container will be assessed

(Continued in next column)

(Continued from preceding column)  
at the applicable rate for each article; subject, however, to a minimum charge for shipments to Hawaii for the last container of  
\$1600 Per 20' container,  
\$2236 per 40' standard container,  
\$2656 per 40' high cube container and  
\$3121 per 45' container.  
Shipments from Hawaii are not subject to these minimum charges for the overflow container.

B. (Reserved for Future Use)

C. Shipper must specify on bill of lading which container is to be considered the lead container and which is to be considered the overflow.

D. Not applicable on shipments moving in refrigerated containers, bulk tanks, flatbed containers, or open-top containers. Twenty (20-ft) closed containers may NOT be utilized as lead containers. Not applicable on straight loads of commodities rated on a PC basis, or on mixed shipments rated under Paragraph B of Rule 645 (Mixed Shipments).

RULE# CYC# APP TITLE

882- 15 0 SHIPMENTS EXCEEDING THE CAPACITY OF ONE CONTAINER (OVERFLOW)  
Filed on: 14JUN2001 Effective: 14JUN2001 Thru: Expire:

RULE TEXT

In order for provisions of this Rule to apply, all containers in a shipment must be tendered to and loaded to the same vessel/voyage and all cargo must be rated on either a Weight or Measure basis or, if in a mixed shipment, under the provisions of either Paragraph A or C of Rule 645.

Applies only when Shipper loads non-refrigerated cargo:

- A. When a single shipment exceeds the capacity of one container the following provisions will apply:  
(Applies only on dry cargo.)
1. Each container, except the last, must be loaded as fully as the character of the freight and other conditions permit, so that no more of the same shipment can be loaded safely therein.
  2. Each container, except the last, will be rated as if it is a separate shipment.
  3. The charges on the excess or "overflow" cargo in the last container will be assessed at the applicable rate for each article; subject, however, to a minimum charge for shipments to Hawaii for the last container of  
 \$1656 Per 20' container,  
 \$2314 per 40' standard container,  
 \$2749 per 40' high cube container and  
 \$3230 per 45' container.  
 Shipments from Hawaii are not subject to these minimum charges for the overflow container.
- B. Shipper must specify on bill of lading which container is to be considered the lead container and which is to be considered the overflow.
- C. Not applicable on shipments moving in bulk tanks, flatbed containers, or open-top containers. Twenty (20) ft closed containers may NOT be utilized as lead containers. Not applicable on straight loads of commodities rated on a PC basis, or on mixed shipments rated under Paragraph B of Rule 645 (Mixed Shipments).

Applies only when Shipper tenders loads of refrigerated

cargo:

- A. Except as provided in subparagraph B, when a refrigerated shipment is loaded by Shipper, each container in the shipment will be rated as if it were a separate shipment.
- B. Except as otherwise provided in individual rate Items, for each vessel/voyage, Shipper may include one overflow container for chilled cargo and one overflow container for frozen cargo. The charges on the cargo in such overflow container will be assessed at the applicable containerload rate for each article, subject to a minimum charge of \$2349 per container. When an overflow container is rated under an Item which has multiple rates based on different minimum weights, the containerload rate applicable to the overflow container shall be determined as if the overflow container were a separate shipment. For purposes of interpreting this Rule, (1) the term "chilled" shall mean a shipment on which the thermostat setting is 29 or more degrees Fahrenheit, and (2) the term "frozen" shall mean a shipment on which the thermostat setting is less than 29 degrees Fahrenheit.
- C. Shipper must specify on the bill of lading which container is to be considered the lead container and which is to be considered the overflow.
- D. Not applicable on shipments moving in refrigerated containers with Modified or Controlled Atmosphere or Dual-Temps. Not applicable on straight loads of commodities rated on a PC basis or on Mixed Shipments rated under Paragraph B of Rule 645.

NOTES:

1. Applicable only as Proportional Rates on shipments having originated at:  
11600 Riverside Drive, Mira Loma, CA 91752
2. Applicable only on shipments of Articles listed under Part A. If the weight of the shipment is less than 401 lbs, the weight of the shipment shall be not less than five separate otherwise described Articles listed under Part B. Above. Articles listed under Part A, above, must constitute not less than 401 by weight of the entire shipment.
3. Commodities not listed above may be included in the shipment provided that the weight of commodities not named above does not exceed 15% of the total weight of the shipment.
- (1) 1. Shipper must have ownership interest in the goods.
- (1) 2. Subject to a minimum of 30 containers per week, moving under this item
- (1) 3. Rates herein include the free return of empty pallets and cardboard separators to Carrier's Terminal in California.
- (1) 4. Rates herein are subject to Rule 525. As an exception to Rule 525 C.2, maximum allowable cargo volume loaded to containers is 2350 cft.
- (1) 5. Rates herein are not subject to Rule 645.

| SECTION 4 - COMMODITIES AND RATES                           | CORR: 35914 | Issue: 16Feb2000   Effective: 16Feb2000EAN |

Except as otherwise provided, rates apply per 100 LBS or 1.000 CFT. Effective Dates (Eff:) as listed below.  
Items with effective dates prior to page Issue Date are brought forward without change.

Effective: 12Mar1999

COMMODITY: 0298-85-100

(Continued from preceding column)

#### Grocery Store Items

#### NOTES:

1 - Rates apply on cargo moving from one Shipper to one Consignee.

2 - Rates apply only when Shipper/Consignee has ownership interest in cargo.

3 - Each container must contain three (3) or more Grocery Store Items, no one of which may exceed 60% of the total cube of the container.

4 - (Applicable to cargo originating from Long Beach only.) An OVERFLOW CONTAINER may be shipped with each full container moving under this Item at a charge of \$1690 per 20-ft. container or \$2373 per 40-ft. container, provided that the following criteria are met:

a. A maximum of 24,000 lbs. or 850 cubic feet per 20-ft. overflow container and 33,000 lbs. or 1750 cubic feet per 40-ft. overflow container is allowed. If the overflow container exceeds either the weight or the cubic maximum allowed, then the full 20-ft. container or 40-ft. container rate applicable per this Item will be assessed.

(Continued in next column)

b. The Shipper must declare accurate weight and cubic measurement for cargo loaded to overflow containers. If the Shipper does not declare accurate weight and cubic measurement, Carrier will assess the full 20-ft. container or 40-ft. container rate applicable per this item, and the overflow will be disallowed.

c. The size of the overflow container may not exceed the size of the lead container.

d. Both the lead and the overflow must be clearly identified on one bill of lading.

5 - (Not applicable to cargo originating in Tacoma.) Rate includes the return of pallets and cardboard separators from Hawaii CY to Pacific Coast CY which loaded to Hawaii under rates in this Item. Shipper must certify that the pallets and cardboard separators returned comply with the provisions of this NOTE.

6 - May include plastic or foam Deli Trays, up to, but not exceeding, 5% by weight loaded to any one container.

7 - Rates herein include West Coast Wharfage Charges.

| SECTION 4 - COMMODITIES AND RATES                           | CORR: 39660 | Issue: 29Mar2000   Effective: 29Mar2000EAM |

Except as otherwise provided, rates apply per 100 LBS or 1.000 CFT. Effective Dates (Eff:) as listed below.  
Items with effective dates prior to page Issue Date are brought forward without change.

(C) Effective: 29Mar2000

Consolidated LTL Cargo

NOTES:

Not Subject to Rules 645 - Mixed Shipments and  
882 - Overflow Cargo

1: Rates in this item are specific and do not alternate with any other rates in this tariff. They will apply only where the shipper has described the shipment as "Consolidated LTL Cargo".

2: Each container must contain at least five or more different commodities, with no single commodity weighing more than 50% of the total cargo weight in the container.

3. For purposes of applying the provisions of this item:  
(A) Any commodity not described under a specific rate in Section 2 of this tariff shall constitute a "Different" commodity if it is described in a separate item number in NMFC 100-T and reissues thereof.

(B) When commodities are described under rate items in Section 2 (other than item 0200-00-0500) any, or all  
(Continued in next column)

COMMODITY: 0698-21-080

(Continued from preceding column)  
of the articles named in one rate item shall constitute ONLY "One" commodity.

4: Rate includes the return of pallets, hangers and cardboard separators from Hawaii CY to Pacific Coast CY which moved loaded to Hawaii under rates in this item. Shipper must certify that the pallets, hangers and cardboard separators so returned comply with the provisions of this Note.

5: As an exception to Rule 110, Paragraph 25, Definition Technical Terms, and when a shipper tenders a minimum (#) quantity of 5 TEU's of Honolulu destined non-Stop-In-Trans freight in a one week time period rated under this commodity number, and when the final destination of a portion of the cargo in another container is Hilo, Kahului, Kawaihae, or Nawiliwili and the balance of the cargo in that container is destined to Honolulu. That container may be stopped in transit in Honolulu for partial unloading subject to the conditions described in RULE 752 of this Tariff.

## West Coast Wharfage Rule Changes

11/20/2001

CSX Lines, LLC filed a series of changes today to the West Coast Wharfage Rule (972) in tariff CSXL-353 which will take effect January 1, 2002. These changes bring the rates for West Coast Wharfage in the Guam tariff more in-line with West Coast Wharfage rates in CSX Lines' Hawaii tariff (CSXL-468) and account for increased charges at West Coast ports over the past two years.

The new Per-Container Rated West Coast Wharfage charges are as follows:

20' Container \$168  
40' Container \$324  
45' Container \$398

Changes will also be filed to intermodal rates filed in tariff 353, since West Coast Wharfage is included in these rates. Intermodal rates will increase \$41 per 20' container, \$71 per 40' container and \$68 per 45' container.

West Coast Wharfage charges for Weight-Rated and Measure-Rated cargos are being converted from a weight or measure basis to a per-container basis. This will provide for more consistent application of West Coast Wharfage. The new Weight-Rated and Measure-Rated West Coast Wharfage charges are as follows:

Weight-Rated Cargo  
20' Container \$95  
40' Container \$137  
45' Container \$154

Measure-Rated Cargo  
20' Container \$168  
40' Container \$324  
45' Container \$398

CSX-04105

VERIFIED STATEMENT OF PETER P. WILSON

My name is Peter P. Wilson. I am General Manager Pricing of Matson Navigation Company, Inc. and have held that position since 1990. My responsibilities include setting the rates that Matson charges to transport cargo and supervising the tariffs, exempt circulars and government tenders through which Matson's rates are published. I have been employed by Matson since 1969. I began my career with Matson in the Law Department as a regulatory law attorney and became Manager Pricing in 1983. Prior to my employment with Matson, I was employed at the Federal Maritime Commission from 1965 to 1969. I have a B.A. degree in History and a law degree.

The offshore domestic trade to Guam is highly competitive. The only attempt by a carrier to take a general rate increase in recent years occurred in 1994, before Matson entered the trade, when APL filed a general rate increase. Sea-Land did not follow, forcing APL to withdraw the increase. Matson has not taken a general rate increase in the Guam trade.

Section 407 of the Interstate Commerce Commission Termination Act of 1995 required the Department of Transportation to prepare a report on competition in the noncontiguous domestic maritime trades. In its Report to Congress, completed in March of 1997, the Department concluded that aggregate freight revenue per container for the U.S. mainland to Guam trade in 1995 was less than 80 percent of the 1990 level, after adjusting for inflation. The Department also reported that there is fluid exit and entry into the Guam trade, partly due to the fact that there is no requirement that U.S.-built vessels be used to carry cargo to Guam from the U.S. mainland as there is in the other offshore domestic trades. Since 1972, seven carriers have entered the trade and five have exited.

The carriers in the Guam trade must match each other's rates in order to remain competitive. When Matson entered the trade in 1996, it adopted the rates published by American President Lines, Ltd. ("APL") and then made selective rate cuts in order to gain customers from the established carrier in the trade, Sea-Land Services, Inc. (now renamed CSX Lines) ("CSX"). Since entering the trade in 1996, Matson has taken approximately 3,400 separate rate actions. The vast majority of these rate actions have resulted in rate reductions. (Any increases were often merely passing through increased drayage and other expenses incurred by Matson to perform the service.) For example, on September 21, 1996, Matson reduced its rate for refrigerated containers by \$200 and reduced its rate for mixed groceries by \$100 on 20-foot containers and \$250 on 40 and 45-foot containers. Matson has continued to reduce rates over the entire time that it has been in the Guam trade, either on its own initiative in attempt to gain cargo or in response to rate reductions by CSX. As examples, Matson reduced its rate for beer from \$96 to \$91.50 per 2000 pounds on September 28, 1996 and reduced its rate for non-alcoholic beverages from \$85 to \$80 per 2000 pounds on October 11, 1996. CSX matched the rate reductions that Matson initiated.

Competition is so strong in the Guam trade that Matson must match any rate reductions taken by CSX in order to retain cargo. Similarly, CSX is forced to match all rate reductions taken by Matson or lose the cargo. As a result, cargo often moves from one carrier to the other and then back again when the rate is matched. Matson is continually negotiating rates with its customers. CSX negotiated a rate with the military to carry U.S. Department of Defense cargo to Guam. Matson matched the rate in its Tariff 2048. Other examples of Matson matching a rate charged by CSX include the rate for animal feed moving out of Portland, Oregon. Matson added pet food to the items included in its foodstuffs, all kinds rate in order to be competitive with

CSX. Similarly, Matson matched CSX's rate and the items included in horticultural supplies.

Matson matched CSX's rate action on household appliances in order to retain the business.

Matson and CSX both have lowered the rate for various commodities at different times and temporarily gained the cargo until the other carrier matched the rate. Matson matched a CSX rate for paint, lacquer and, in turn, published a new rate for paint, lacquer that CSX then matched. Matson published point rates from several locations for mixed groceries and restaurant supplies, including foodstuffs, that were matched by CSX. CSX also matched Matson's rate for plastic pipe, while Matson matched CSX's rate for salt in bags and resin.

Matson publishes two tariffs in the Guam trade, Tariff Nos. 2045 and 44, which are filed with the Surface Transportation Board (STB), and two exempt circulars, Circular Nos. 7800 and 7600. In September, 1996, the STB-filed tariffs contained 292 separate commodity items, and the two exempt circulars contained 283 separate commodity items. The rates that Matson charges to carry dry cargo to Guam vary enormously. In September 1996, those rates ranged from \$1,655 for moving a 40-foot container of for printing paper westbound to \$14,000 for moving a container of PCB waste eastbound.

Many factors determine where within that range the rate for a particular commodity will fall. One obvious factor is the demand for the transportation. Another is the rates and services offered by other carriers in the trade for the same or similar commodities. Other factors include the cost of providing the services, the volume of cargo to which customers can commit and the value of the commodity. Matson generally charges more to carry valuable commodities, such as furniture or machinery, than it does to carry lower value commodities, such as animal feed or rice. All of these factors vary greatly from commodity to commodity, and many of them can change quickly over relatively short periods of time. For example, demand for different services

or commodities has fluctuated tremendously with changes in tourism, U.S. military operations and general economic conditions. Since 1996, demand has generally declined, which has been reflected in the many rate reductions Matson has effected, described earlier.

Matson offers a variety of modes of service, from exclusively ocean carriage (container yard to container yard or CY-CY for short) to intermodal moves involving vessel and one or more other modes of transportation, such as rail or truck. In setting intermodal rates, Matson must consider the ocean freight rate that Matson currently charges for a similar commodity, wharfage charges at the applicable ports, the rail or motor carrier cost, origin drayage cost and any fuel surcharges. Many customers prefer that drayage from their warehouse to the terminal yard be included as part of the through rate. In that case, there is no longer a recognizable CY-CY charge but, instead, the participating carriers each receive a division of the through rate.

As noted earlier, the volume of cargo to which a customer can commit is also important in the rate setting process. Large shippers use their large volume of cargo to negotiate lower freight rates. A customer may commit business to Matson in order to receive a lower rate. Large volume shippers who have received favorable rates based on a volume commitment include Macy's (department store merchandise), Morrico (vehicles), Bensen-Do-It-Best (building materials), Xerox (duplicating machines), Ross (department store merchandise) and Dewitt (packing material). CSX has also been successful in securing the cargo of large shippers. Matson lost the Payless account to CSX last year and also lost the vast majority of the cargo shipped by Cost U Less. CSX carries all the Procter & Gamble shipments to Guam.

Matson frequently offers project rates for shippers who supply goods to a particular project, basing the rate on the size of the project and the projected number of containers that will be offered for transport. This is a highly competitive aspect of the Guam trade. Examples of

projects for which Matson has offered special rates include the Anderson Air Force Base Pipeline Project, the Dodea Schools Project, the Anderson Air Force Base 102 Unit Housing Project, the Army National Guard Armory Project and the Army Reserve Project. Matson lost the Tycom Project after CSX undercut the rates that Matson had negotiated.

Third parties, such as freight forwarders, can often obtain lower rates than the beneficial cargo owner could on his own because the freight forwarder has the ability to mix and match various commodities that he receives from his own customers. Shippers of over-dimensional cargo usually ask for a reduced rate and Matson will tailor a rate for a specific piece of equipment that will expire after the piece has been shipped.

The status of the customer can affect the rate that Matson charges. For example, the U.S. Department of Defense places limitations on rates. The U.S. Postal Service requires carriers to submit blind bids for cargo.

In my 37 years of experience, I have never known General Order 11 to be used to examine existing rate levels but only to assess proposed general rate increases.

APR 12 2002 4:37PM

NO. 9153 P. 2

VERIFICATION

I, Peter P. Wilson, verify under penalty of perjury, that the foregoing statement is true and correct. I further certify that I am qualified and authorized to file this statement.

Executed this 17<sup>th</sup> day of April, 2002.

*Peter P. Wilson*

Peter P. Wilson

**VERIFIED STATEMENT OF DANIEL DOWNES**

My name is Daniel Downes. I am employed as the Director of Marketing for CSX LINES, LLC's ("CSX") Hawaii - Guam Service.

***OPERATIONAL INFORMATION, SCHEDULING AND ROTATION OF VESSELS IN THE HAWAII/GUAM SERVICE.***

CSX operates five vessels in its service from the mainland to Guam. The five vessels operate on two strings. The first vessel string, designated the Pacific Express Service ("TP1") operates on a fixed weekly schedule with direct sailings from Tacoma every Sunday and Oakland every Wednesday. TP1 string vessels then sail to Honolulu (arriving the following Sunday). Vessels depart Honolulu the following Tuesday and arrive in Guam seven days later. The vessels then depart Guam and sail to Hong Kong and Taiwan before returning to Tacoma. Cargo loaded in the United States for ports beyond Guam in Asia is transported by Maersk-Sea-Land Lines and not by CSX. For example, the M/V CSX RELIANCE, voyage RG127W is scheduled to depart from Tacoma on June 23, 2002 and Oakland on June 26, 2002.<sup>1</sup> The vessel is scheduled to arrive in Honolulu on June 30 and in Guam on July 9, 2002. The M/V CSX RELIANCE is scheduled to depart from Guam on July 10 and will arrive in Hong Kong on July 13, 2002. The vessel will proceed to Kaohsiung, Taiwan on July 15, 2002 and is scheduled to return to Tacoma on July 26, 2002.

The second string designated the California Hawaii Express Service ("CHX") operates on a fixed weekly schedule with sailings from Oakland (every Wednesday) and Long Beach every

Saturday. CHX string vessels arrive in Honolulu every Wednesday where cargo destined for Guam is unloaded and relayed to TP1 string vessels for delivery to Guam and Saipan. The CHX vessel then returns to Oakland. For example, the M/V CSX Navigator voyage 167S is scheduled to depart from Oakland on June 12, and Long Beach on June 15. Cargo destined for Guam will be unloaded from the vessel upon its arrival in Honolulu on June 21, 2001. Subsequently, the Guam cargo will be loaded upon the M/V CSX RELIANCE, voyage RG127W, and track the schedule set out above. After unloading all its cargo in Honolulu, the M/V CSX Navigator will load any cargo destined from Hawaii to the mainland and will sail back to Oakland.

Additionally, CSX purchases space from Matson for CSX cargo moving from Long Beach to Guam. This service, which departs from Long Beach every Wednesday is, designated the mid-week express ("MWX") services. Cargo destined for Guam and Saipan is unloaded in Honolulu and relayed to the next Guam-bound TP1 vessel. CSX neither owns nor operates these vessels. A typical shipment from Long Beach is loaded in Long Beach on Wednesday and arrives in Guam 13 days later. For example, CSX cargo loaded on the M/V EVA, voyage EU171S will depart from Long Beach on June 26 and arrive in Honolulu on June 30, 2002. It will then be relayed to Guam on the M/V CSX RELIANCE, voyage RG127W, and arrive on July 9, 2002.

In each situation described above CSX is required to deal with a differing set of operational and ownership circumstances. In its TP1 string CSX transports cargo directly from the mainland to Guam without relay. Consequently, containers destined for Guam are only loaded and unloaded once from the vessel. This is the cargo equivalent of a direct flight. However, due to the nature of its agreement and chartering relationship with Maersk-Sea-Land

---

<sup>1</sup> CSX also accepts intermodal cargo from CSX rail and motor terminals throughout the mainland. These points include: Elizabeth, New Jersey; Jacksonville, Florida; Chicago, Illinois; Memphis, Tennessee; New Orleans,

Maersk Lines"). CSX is only involved in the transportation of cargo to Guam, Saipan, Tinian and Rota. All cargo loaded on TP1 string vessels for non-U.S. destinations are transported by and for the account and expense of Maersk Lines. CSX does not transport cargo beyond Guam except for cargo that is transshipped by barge from Guam to Saipan, Tinian, and Rota.

Cargo moving to Guam on the CHX string is subject to unloading and relay in Honolulu. This is the cargo equivalent of changing planes at hubs in Atlanta, Chicago, or Charlotte. The cargo loaded on CHX string ships are, with the exception of cargo moving under slot charter with Matson to Hawaii, for the account of CSX. CSX is not involved in any long term chartering or vessel sharing agreement with Maersk Lines for vessels sailing between the mainland and Hawaii and back on this string. However, once CHX-string cargo is relayed to a TP1 string vessel for on carriage to Guam, that cargo is commingled with cargo moving subject to the economic and operational factors inherent in CSX's commercial relationship with Maersk Lines.

Cargo moving on the MWX is loaded onto a vessel on the mainland that is neither owned nor operated by CSX. Consequently, the economic factors inherent in the first leg of the voyage are those typically found in a simple slot chartering agreement. However, cargo destined to move beyond Hawaii for Guam is subject to relay on a TP1 string vessel at CSX's terminal in Honolulu.

Consequently, cargo shipped by CSX to Guam is shipped in a number of different ways on vessels that are subject to a wide array of operational and ownership scenarios.

Lastly, and as indicated above, CSX, not unlike most other carriers in the domestic and foreign liner trades have transitioned from a purely port-to-port service to a fully integrated intermodal point-to-point service. CSX accepts container loads of cargo for Guam at many intermodal points in the United States. An indication of the comprehensive nature of CSX's

---

Louisiana; Houston, Texas; and St. Louis, Missouri.

intermodal service is contained in the exemplar sailing schedules set out in Attachment A to this Statement.

### *TARIFF AND PRICING INFORMATION*

As with any trade, the CSX tariff governing shipments from the United States to Guam contains a wide array of commodities. CSX does, in fact, transport a diverse cargo mix to Guam. A typical vessel will include containers of canned goods (including meats, fruits, and vegetable), snack foods, beverages (soda, beer, and fruit juice), automobiles and Sport Utility Vehicles, appliances, dry goods, building and construction material and household good and personal effects. Given the multitude of U.S.-origin points for cargo moving to Guam each active item in the CSX tariff is likely to reference a range of rates for each commodity depending upon the load point. For example, CSX maintains a port-to-port container rate for canned goods as well as numerous point-to port rates for container loads of canned goods original in, for example, Chicago, Seattle, Kansas City, Oklahoma City, and Cincinnati. Similarly, CSX maintains a multitude of point-to port intermodal rates for many commodities, whether rice, construction materials, lumber and building supplies that moves regularly in the trade or from that point.

Given the ever-changing intermodal locations, changing rail, and local truck rates, and various trade-wide conditions to which any carrier is subject (inconsistent demand, seasonal fluctuations in cargo volume, and economic down and up swings) the CSX lines tariff is consistently changing and evolving. In effect it is a dynamic document that reflects market trends, competition in the trade, sudden demands for space, large-volume cargo offerings and economic changes in general.

## CSX Lines Introduces New Hawaii Service

### Contacts

CHARLOTTE, N.C. - October 16, 2000 -- CSX Lines today introduced a new Hawaii service--the Midweek Express. The Midweek Express (MWX) is a fortnightly service offering three distinct benefits to customers: a direct sailing from Southern California arriving Sunday in Honolulu; direct service from Honolulu to Tacoma; and Intracoastal service from Tacoma to Long Beach. The Midweek Express will provide Hawaii customers with more direct sailings from the West Coast to Hawaii, better connections from inland points, increased capacity for reefer shipments and other specialized equipment, enhanced equipment availability, and greater service flexibility.

ddownes@csxlines.com

Clint Taylor  
Tel: (808) 842-5383  
Fax: (808) 842-5396  
ctaylor@csxlines.com

"This deployment reaffirms CSX Lines commitment to the Hawaii trade," said Tom Cowan, CSX Lines senior vice president, Alaska, Hawaii and Guam. "The Hawaiian economy appears to have turned the corner, and CSX Lines is prepared to support Hawaii's economic growth by adding this new service." The Midweek Express was designed around midweek departure from Southern California with Sunday cargo availability in Honolulu, an important advantage for time-sensitive shipments. "CSX Lines offers the only direct connection from Southern California to Honolulu with Sunday cargo availability," said Brian Taylor, CSX Lines vice president, Hawaii and Guam. "This deployment, in conjunction with our recent chassis purchases, provides our customers with a clear advantage in Hawaii."

The Midweek Express sails from Long Beach early Wednesday morning, providing the Southern California and Pacific Northwest markets with Sunday cargo availability in Honolulu every other week. This service compliments CSX Lines' California-Hawaii Express (CHX) service, which sails at the end of the week, by providing two direct sailings from the trade's largest market. This addition brings the number of CSX Lines' vessels committed to the Hawaii trade to eight, with three Honolulu arrivals every other week.

CSX Lines, LLC is a wholly owned subsidiary of CSX Corporation, providing domestic container service from the 48 contiguous states to/from Alaska, Hawaii, Guam and Puerto Rico. The Charlotte, N.C.-based company has offices throughout the United States, 16 ships and 27,000 state-of-the-art containers.

CSX Lines' dedicated customer service team is available 24 hours a day/7 days a week to take care of bookings and documentation, on the web at [www.csxlines.com](http://www.csxlines.com) or toll-free at 877-678-7447.

## CSX, Matson in U.S.-Hawaii deal

Updated 10:01 a.m. ET, Fri Jul 20, 2001

BY CHRIS DUPIN  
JoC ONLINE

CSX Lines has entered into an agreement to ship Hawaii-bound cargo on Matson Navigation Co. vessels.

Starting on August 1, CSX will ship some boxes on Matson's midweek service out of Southern California. CSX, which offers weekly sailings to Hawaii from Long Beach every Friday and had offered sailings every other Wednesday, will now offer sailings every Wednesday.

Previously, CSX had trucked boxes up to Oakland to catch Wednesday sailings by CSX vessels to Hawaii from northern California.

Tom Cowan, a senior vice president at CSX Lines, said the company may continue to dray some boxes to Oakland, but would now have the option of putting boxes on Matson vessels. He would not disclose how many slots CSX will purchase from Matson on a weekly basis.

Cowan also said that CSX is evaluating the future deployment of the CSX Producer, the 1,500 TEU ship that currently operates the midweek sailings out of out of Long Beach.

Matson spokesman Jeff Hull said the two companies have a long history of cooperation, and that he agreement was an "extension" of that cooperation.

Chris Dupin can be reached at [cdupin@joc.com](mailto:cdupin@joc.com).

Sea-Land Service, Inc.  
One Renton Place, Suite 600  
South 555 Renton Village Place  
Renton, WA 98055-3221  
Tel (206) 204-6300  
FAX (206) 204-6431

Dear Valued Hawaii Customer,

Sea-Land Service, Inc. filed several tariff revisions today with the Surface Transportation Board. These tariff revisions are directly related to rapidly declining revenues in certain segments of our business and trends Sea-Land has seen in the marketplace that affect its competitiveness.

The tariff changes are outlined on the attached sheet and include a 5% increase on selected tariff items. This increase is being taken on several tariff items where Sea-Land has experienced declining revenues. Other changes include modifications to tariff rules and notes in tariff items. Rule and note changes are necessary for Sea-Land to compete and to better recognize costs associated with providing basic container-load ocean transportation service. The effective date for these changes is September 13, 1988.

Sea-Land has made every effort to listen to the concerns of its shipper's while determining how to address the above mentioned issues. We were not surprised to hear that our shippers are also concerned about these same issues. We are grateful to the many of you that have been helpful in suggesting options to address them. We are hopeful that you will find these changes are in line with your long-term vision of this industry in the Hawaii trade.

Regards,

*Dan Downes*  
Director, Pricing Hawaii/Guam/Alaska

CSX-04132

## Rule changes:

- Definition of a Shipment: Rule modified so that multiple containers on a single master bill of lading are required to move on one vessel. This will simplify rating and assist our systems people in developing a new documentation system.
- Heavy Packages and Pieces, Minimum Bill of Lading Charge and Mixed Shipments: Rates in rules increased 5%.
- Overflow Shipments: Overflow minimum increased 10%. Significantly increased use of this rule by shippers has resulted in per container revenues which are inadequate for the cost of service provided and well below acceptable commodity rate levels.

## Rate changes:

- Section 02 per-hundred-rate items and selected per-container rates increased 5%. Increase tied to declining revenues in certain segments of Sea-Land's business.

## Note changes:

- Many tariff items have notes which allow "other articles" to be shipped along with the named commodities at the rate for the named commodities. In most cases the "other articles" are defined, but in some cases they are not. Rather than perpetuate this, Sea-Land is removing these notes. In some cases, Sea-Land is adding the articles to the viz list. In other cases, they must move under another tariff item. If there is no tariff item with a per-hundred-weight rate, Sea-Land is establishing one.
- Examples of the above mentioned approach:
  - Most of the "other articles" in the Paint Item notes (0232-08-0000) and Roofing Item notes (0268-07-0000) have been taken out of the notes and added to the viz lists.
  - Other articles, such as paint, adhesives and caulking compounds, which now move under a note in the Building Boards Item (0265-38-1000) at \$5.52/cwt will move under the Paint Item (0232-08-0000) at \$5.77/cwt.
  - Machinery, which now moves under the note in the Printing Paper Item (0248-08-1100), will have a new rate of \$9.15/cwt filed in the Machinery Item (0264-00-0500).
- The Canned and Preserved Foodstuffs Item (0220-00-0000) is being revised in two phases, but ultimately in the same manner. Sea-Land is adding a \$9.00/cwt rate for the "other articles" allowed to move under this item with canned foodstuffs as an interim step towards removal of the note next January. This allows shipper's who utilize this tariff item the time to adjust their shipping patterns. Also, Sea-Land is prohibiting the use of 45' equipment under this item. Revenue levels, even with these changes, are not sufficient to support the use of this piece of equipment.

A complete listing of tariff changes is available from your local Sea-Land Sales Representative.
