Phone: 847-550-1085

E-Mail: antoine.abbond@yahoo.com

How will CN's proposed acquisition of the EJ&E impact you?

The community of Hawthorn Woods (HW) is very intertwined with the current railroad line and level of traffic. We see 4-6 trains a day and we learned how to live with it. To increase traffic to 26 trains/day of freight type will devastate the community's harmony and current balance. I have 3 kids that go to school and cross that railroad every morning and afternoon, not counting other school activities. Their lives will be in danger if they all of a sudden were exposed to this change, if CN did not build overpasses and avoided populated and congested areas. I'm concerned about my son's asthma from increased level of pollution. If my son died of asthma complications what would the government do? It would be too late. Do you care?

Signed
