As a student at Barrington Highschool I find it tricky enough to make it through traffic, I am certain that the addition of these trains would only make this harder. Whether I am getting there for a test or a club, being late would be bad for my student life. Also with train horns and the vibrations this would distract many people and annoy everyone. The trains would damage the environment of the town and subsequently ruin house prices, which could create a butterfly effect and ruin Barrington.

Yet another problem is emergency vehicles getting through town, if the roads are backed up, this is an unacceptable future.
