Transcript:

My family and friends are 150% against the proposed acquisition of the EJ&E line by Canadian National. In no way does this acquisition benefit my community nor any other communities that's concerned. Recently, we attended a public hearing at West Aurora High School. We listened as area police, fire, school, and hospital officials spoke against this proposed acquisition. We listened as many, many area residents voiced their opinions as well. This proposed acquisition will not serve the best interests of Illinois. This proposed acquisition will cause problems with the environment as well as lower property value in the event of a haz mat accident or derailment. We will see poor response time from emergency and police vehicles, not to mention the fuel that's wasted by vehicles idling at the crossings. This is all going to affect our environment. I say no, no, no. Thank you
