

Environmental Impact Statement

STB Finance Docket No. 35087

Comments must be submitted by September 30, 2008.

I am against this E J & E National Railway.
Our children's safety, going to school. If they can
get to school because of a train going through
our town. I hope I never have to go to Good
Shepherd Hospital because of a heart attack or
other such serious health problems.
The noise, hazardous spills, etc., etc.,
impact on our value of our homes.

Joliet
