Dear Mr. Navecky:

I would like to express my deep concerns over the proposed Great Lakes Baisin Transportation,LLC rail line project. Docket # FD 35952. The project concerns me greatly and I oppose it. I ask that the Surface Transportation Board deny the proposal. These are some of the reasons for my opposition.

1. Permeant destruction of priceless farm land.
2. Disruption of farmland drainage systems that have been established and have been in use for decades.
3. Closer of rural roads and limiting access for emergency response.
4. Added expense for local school districts in transportation of students and the added tax burden this would impose.
5. Reduced safety at the additional rail crossings.
6. Noise and vibration to existing structures and homestead along the route.
7. Possible damage and or exposure to toxin substances in the event of and accident or derailment.
8. Disruption of established wildlife sanctuaries and migration trails.

I feel that any one of the reasons would be enough to to reject their proposal but taken as whole it can only be seen as a loss for our community. It far out paces any possible gain we might receive from such a rail line project.

Respectfully Submitted:

William L. Wilson
