Email Address: * langfordp@sbcglobal.net
Group/Affiliation: none

Message: My family is totally against the "proposed" acquisition of the EJ&E Railway by the Canadian National Railway Co. Our "travel life" around our homes & neighborhood of NW IN will be HELL with the huge addition of the number of trains/day, as well as much longer trains. Thousands of us residents in this NW IN area will be affected by these grievous changes to these railroads - which are already bad enough as they presently exist; let alone allowing them to tie up the crossings for even more time with greater numbers of cars which will take several times as long to clear a crossing. Our travel to work, and our occasional need to get to local hospitals are all in jeopardy of being terribly late and possibly too late for hospital attention because of these RR crossings which are all around us. We strongly disapprove of the RR traffic changes being considered, and we will speak to all of our legislative representatives about this issue.
