

CN ELBE

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

At a Community member I am appalled @ this proposal. Quality care in our hospital is good Shepherd hospital is all about. Redirected and delayed care is a true public concern. Time does make a difference in stroke and heart disease, but also there are issues in trauma and other serious injuries that this train company has not taken into consideration.

Mitigation 1st
Railway 2nd

Ueber die Nase

[illegible]

Joliet
