How will CN's proposed acquisition of the EJ&E impact you?

CN needs to put up the \$2-3 billion for infrastructure improvements, ie rail crossings and especially bridges. It is very hard to cross the streets with the rail traffic as it is now. With 20-25 more freight trains per day, this will make it impossible to cross without bridges. If CN puts this amount up for these improvements so the cost doesn't come from my taxes, it would go a long way to resolving the issue. Also improvements to the rail itself so the vibrations and ~~the~~ noise caused by the antique lines need to be improved.

Signed

George Winnie
