

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

Why in the world would you even consider this CN proposal? It makes no sense to demolish our community. ~~There~~ There are so many negative effects to this plan which are so serious! Health, safety? If I wanted to get somewhere faster I would need to consider the rights of others and respect their needs. You are doing neither!

CN has a terrible safety record. Please be a respectful board by thinking about this community and all of our citizens.

[illegible]

Joliet
