How will CN's proposed acquisition of the EJ&E impact you?

- Safety is compromised
 - Canadian Nat'l. Rail has a terrible safety record - ignore their P.R. lies.
 - Toxins will be freighted and will affect all water systems to residents.
 - Children & water parks reside near the tracks.
 - Too many trains will impact Emergency Responders / Fire Dept. from reaching residents. Lawsuits will abound.
 - Too many cars already - this will add a gross amount of congestion.
- Environmentally / Financially
 - We need another Metra or commuter rail system (on the EJ & E) - better for commuters - more money for city/state from commuter train income.

★ Would YOU want to live here knowing a careless train co. (CN) wants to run over 20 (yeah, right!) trains a day? This system will not be safe - we were not even informed till the 11th hr.
