

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/27

Comments must be submitted by September 30, 2008.

- Road Traffic - Every day traffic on Lake Cook currently 7-8 AM 4-6 PM ~~breaks~~ backs up 2-3 miles just to get to the High School and through town to their jobs. or home
 - Commuter Train Traffic - I am a commuter on the N.P. The NP is at commuter capacity and has no room to move around its schedule for the CN. Also just to get to my train every day the traffic backs up 1 mile on Lake Cook + Hough St. 1965
 - Property Values - Our neighborhood has never had a decline in value. Currently no homes can even be sold because of the CN. And, those that are listed are at prices 20% lower than 3 years ago. Who is going to pay for this travesty?
 - Noise Pollution - Existing S+E trains are 1 or 2 local locomotives not 3 or 4 road locomotives. Our house shakes
- YOUR INPUT IS IMPORTANT!** when one of the CN 1st into trains moves then.

YOUR INPUT IS IMPORTANT!
