Transcript:

Um, I'm just calling to protest the um acquisition of the railway. Um I'm concerned about the traffic that will be heading through the Lake Zurich-Barrington area. Um I have children that attend Lake Zurich High School and the kids cross the tracks all the time on the way home school. Um it there's no way to get around get home without going over the tracks, either walking or driving, there's no way um for them to get home without doing that and I think it's a very dangerous situation that we're getting into by, by allowing this, this heavy, heavy volume traffic. Um, if you have any questions, my number is 847-726-9528. Thank you very much
