

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: _____

It is unbelievable that the United States government is subjecting itself to an over of country enterprise's bullying legal threats. The C&N Railroad is trying to force the ICC to make a lastly decision on the Surface Transportation Board's study on the impact of the sale of the ET&E on the Chicago suburbs.

May I conclude by strongly suggesting that the government think long and hard on their decision to allow a Canadian company to profit from the destruction on Chicago Suburbs.

[illegible]

Joliet
