Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

Does an increase in transportation of goods trump a communities safety? Of course not!! Obviously safety is one of the major issues that concerns communities effected by this acquisition. Not only are we concerned about the increase in traffic accidents, but the accidents that occur from this railroad running through the back yards of many neighborhoods, not to mention going right past the High School. Have we forgotten about our safety and started thinking by dollars?! To believe that this community and surrounding areas would allow an 400% increase in rail traffic is absurd. To go through w/ an aquasation like this would congest the 3 major arteries in town. Create back up, and most importantly permit safety vehicules, emergency vehicles, and public transportation to properly operate and could and will eventually impact the lives in our community. With only addressing 1 issue and more at risk with this aquasition than to gain. I propose that we stand as ONE and stop this movement before it ruins a community and an AREA.

YOUR INPUT IS IMPORTANT!
