Transcript:

I would like to make a comment in regards to this sale of the EJ&E to CN Rail. I am whole heartedly against it. It would impact myself, my family, and my neighbors tremendously. We live very close to the tracks, they run through our, virtually, our backyard. It would be extremely noisy. The vibration we already hear from the size of the trains that are going through now, and I understand this would just increase with the extra length of the trains and the speed of the trains. We are dead-set against it. I would really hurt us as far as travel. My wife and I are both nurses, we have to go over tracks to get to our jobs, it could delay us getting to and from work, it will for sure, delay my kids getting to and from school. This will impact us in a lot of ways. We left the city of Chicago many years ago to get away from the noise and pollution and traffic caused by the planes and trains and automobiles and now here we are again fighting the same fight. So, for the betterment of my family and for the community we would not like to see the sale go through. We would like this, we are in dead-set opposition against CNN buying this railway. Thank you very much for your time and attention
