I think that letting the trains go through Barrington is not a very good idea. I think that this is because, if you put extra trains in our area, then traffic will be very hazardous because we have a lot of children and that increases the risk of children's injury. Also, when people go to bed some live around the train tracks and with more trains that means that there will be more sound of the train waking up people all night. Some of the things that is good about allowing now trains cross through Barrington are that if we don't allow the trains go through, then the truck drivers will lose their job. Please think about this change.
