Subject: Re: Great Laes Basin Rail Line Question

Ms. Bukowski -

You're certainly welcome to circulate a petition, and once received, it would be placed into our environmental record. The environmental record would be considered by the Board members when they make a decision on this project. That said, what's most helpful to our environmental process would be for those individuals to also send in their own comment letters with specific issues they would like us to address in our environmental review.

Thank you for participating in our environmental review process including the comments you provided to me previously.

Dave

Subject: Great Laes Basin Rail Line Question

My name is Donna Bukowski, I am a Manteno resident and want to know IF I collected signatures against the proposed railway from Manteno residents and farmers and submit them to the board at the next meeting before June 15th.....can this help in any way, shape or form from allowing this proposal of this railway to materialize? I mean, there are only 9,200 people in Manteno....and I'm pretty darn sure 90% of those people would be happy to sign a petition against this railway.

Thank You in advance for your answer.

Donna Bukowski  
Manteno, IL
