Group/Affiliation: Alternative for Frank, all should like

Message: After great though and many sleepless nights I think I have a plan that would truly benefit the whole community. It will fit the public need. It won't destroy any farm land at all, make no environmental impact. Eventually it may even make some people like Frank! He won't need any government approval, financing is there. He will be able to have his own legacy without destroying tens of thousands of other peoples legacies! I'm sure most will agree with me? PLEASE SEE ATTACHMENT.
Thank you for your consideration,
Art LeDoux
