CN | EJ&E

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: Aug. 28, 2008

Comments must be submitted by September 30, 2008.

If you should find that your list of pros + cons seem to be balancing out, please take the following into consideration:

Inner residents of the EJ+E lines chose to live where they live knowing that existing train traffic runs @ a fairly high volume. This is what they are accustomed to, and their municipalities are capable of handling emergency situation on both sides of the tracks, and they already have many grade separation crossings, that are paid for!

Outer residents of the EJ+E line chose to live where they live knowing that existing train ~~the~~ traffic runs @ a fairly low volume.

IF CN acquires EJ+E lines, will it be fair to the outer residents ???

YOUR INPUT IS IMPORTANT!
