Chaffee, Missouri 63740
July 31, 2006

The Honorable Vernon A. Williams
Secretary
The Surface Transportation Board
1925 K Street, N.W.
Washington, D.C 20423-0001

**Re: Notice Finance Docket No. 34672; Union Pacific Railroad Company –
Acquisition and Operation Exemption – Line of the Burlington Northern and Santa Fe
Railway Company**

Attached is a petition (2 of 3) to the STB signed by 210 individuals who would be very adversely and irreparably affected if the STB approves Union Pacific's Petition for Acquisition and Operation Exemption of the line of the Burlington Northern and Santa Fe Railway Company between Rockview and Sikeston, Missouri. For all three petitions submitted today there is a total of 747 individuals who signed the petitions.

The petition states: **"We, the undersigned, petition the STB to reject Union Pacific's exemption request for acquiring the BNSF track between Rockview, Mo. and Sikeston, Mo. and for the STB to instead recommend the alternative of UP double tracking its existing route between Rockview, Mo. and Dexter, Mo. We also ask that an Environmental Impact Statement be required, not simply an Environmental Assessment. If UP's exemption is granted, the increased traffic and resulting increased blockages of our crossings would have a detrimental effect on our safety and health, as it may result in blockage of the crossing when emergency entry or exit is needed."**

In the filing by Union Pacific Railroad Company, Union Pacific requested that the Surface Transportation Board exempt UPRR's proposed acquisition and operation of the BNSF line from Rockview, Missouri to Sikeston, Missouri from 49 U.S.C. 11323 pursuant to 49 U.S.C. 10502. UPRR states: "Under 49 U.S.C. 10502, however, this acquisition should be exempt from regulation. UPRR's acquisition of the Line will promote several elements of the rail transportation policy of 49 U.S.C. without running

afoul of any." Later in the filing, UPRR again states that "The acquisition will promote significant provisions of the rail transportation policy and will not run counter to any goals of this policy."

49 U.S.C. 10502 states "...the Board, to the maximum extent consistent with this part, shall exempt a person, class of persons, or a transaction or service whenever the Board finds that the application in whole or in part of a provision of this part -
(1) is not necessary to carry out the transportation policy of
section 10101 of this title;

Sec. 10101 states "Rail transportation policy

In regulating the railroad industry, it is the policy of the
United States Government -

(8) to operate transportation facilities and equipment without
detriment to the public health and safety;"

Union Pacific Railroad Company left out of their filing application any mention of this policy 10101(8). If UPRR receives approval for this acquisition, it will be to the detriment of the public health and safety of people along the proposed acquisition.

The health and safety of the people who signed the attached petition will be detrimentally affected by this acquisition. The increased train traffic would make it more likely that a railroad crossing would be blocked should the need arise for police, ambulance, or fire emergency vehicles to go over a crossing. The increased train traffic would also make it more likely that a crossing would be blocked if a person or persons needed to get across a crossing in an emergency.

Attached are the petitions for 210 people who signed this petition.

Thank you.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Brenda Heeb".

Brenda Heeb

APPENDIX

Petition to the STB signed by 210 individuals

PETITION TO STB RE: FD#34672 UNION PACIFIC R.R.

Petition to Mr. W. Douglas Buttrey, Chairman, Surface Transportation Board, 1925 K Street NW, Washington, D.C. 20423 and to Section of Environmental Analysis of the STB RE: Docket #34672, Union Pacific Railroad Company - Acquisition and Operation Exemption - Line of the Burlington Northern and Santa Fe Railway Company.

We, the undersigned, petition the STB to reject Union Pacific's exemption request for acquiring the BNSF track between Rockview, Mo. and Sikeston, Mo. and for the STB to instead recommend the alternative of UP double tracking its existing route between Rockview, Mo. and Dexter, Mo. We also ask that an Environmental Impact Statement be required, not simply an Environmental Assessment. If UP's exemption is granted, the increased traffic and resulting increased blockages of railroad crossings would have a detrimental effect on our public health and safety, as it may result in blockage of the crossing when an emergency passage is needed.

We, the undersigned, petition the STB to reject Union Pacific's exemption request for acquiring the BNSF track between Rockview, Mo. and Sikeston, Mo. and for the STB to instead recommend the alternative of UP double tracking its existing route between Rockview, Mo. and Dexter, Mo. We also ask that an Environmental Impact Statement be required, not simply an Environmental Assessment. If UP's exemption is granted, the increased traffic and resulting increased blockages of railroad crossings would have a detrimental effect on our public health and safety, as it may result in blockage of the crossing when an emergency passage is needed.

PETITION TO STB RE: FD#34672 UNION PACIFIC R.R.

Petition to Mr. W. Douglas Buttrey, Chairman, Surface Transportation Board, 1925 K Street NW, Washington, D.C. 20423 and to Section of Environmental Analysis of the STB RE: Docket #34672, Union Pacific Railroad Company - Acquisition and Operation Exemption - Line of the Burlington Northern and Santa Fe Railway Company.

We, the undersigned, petition the STB to reject Union Pacific's exemption request for acquiring the BNSF track between Rockview, Mo. and Sikeston, Mo. and for the STB to instead recommend the alternative of UP double tracking its existing route between Rockview, Mo. and Dexter, Mo. We also ask that an Environmental Impact Statement be required, not simply an Environmental Assessment. If UP's exemption is granted, the increased traffic and resulting increased blockages of railroad crossings would have a detrimental effect on our public health and safety, as it may result in blockage of the crossing when an emergency passage is needed.
