1. Traffic would be a big problem.
2. If 20-25 trains daily are proposed, that is more than one train per hour.
3. Also, not only one crossing would be involved, 2 possibly 3 crossings at the same time would be involved - That should be a no go!
4. The above all would and could be a very unsafe situation for Ambulances and time involvement!!!
 2 Fire Departments
 3 Police Department
 4 School Busses -
 5 Pedestrians
5. What would the freight trains do to homes & to the families living near the tracks??
6. 20-25 trains daily should not be considered even if it would eliminate some of the trucks that now deliver to the areas that the CN RC would service

7. I am aware freight trains are important but now we are under crossings that are not safe for freight train travel!
