Transcript:

I'm calling to express um my opposition to the CN acquisition of EJ&E based on the Environmental Impact Study and the anticipated traffic delays, the significant costs that will be incurred for mitigating, the additional train traffic that would cross many of our major thoroughfares here, as well as the overall impact on the quality of life through our and many other neighborhoods, and it would be my view based on the Impact Study that the cost both in terms of hard dollars, as well as the quality of life, in no way justifies any of the benefits that would accrue as a result of this acquisition. So I am strongly opposed to it. If you have any questions, you can contact me via my telephone number at 630-851-0120. Again, I would appreciate the Surface Transportation Board um consideration in this matter. It's very important to me and our community and I would that uh again the Board would take a very hard look at this and um help us in any way that you can. Thank you very much. Bye
