Submission Text

Ken Blodgett Surface Transportation Board 395 E Street, S.W. Washington, DC 20423 ATTN: Office of Environmental Analysis, Docket No. 30186 Enclosed please find 58,927 individual public comments collected by CREDO Action for submission to the Tongue River Environmental Impact Statement review process. Individual comments may differ throughout, although the majority read as follows: "I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change." The comments have been split into 18 documents and 6 submissions in order to facilitate uploading to the Regulations.gov website. This is the fifith submission. Please contact me if you have any questions about the attached comment submissions. Sincerely, Josh Nelson Campaign Manager, CREDO Action jnelson@credoaction.com 415-369-2000

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Richard W Firth

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ronald Selig

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

M S

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Eithne Davis

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Morton Deutsch

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Travis E. Jennings

CREDO Action

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Dawn Demaske

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Robert J Schile

ATTN: Office of Environmental Analysis Docket No. 30186

Without existing export terminals and without current "safe" coal car transport regulations it makes no sense to approve the Tongue River Railroad. The design and availability of enclosed coal rolling stock is essential to prevent the degradation of the environment and homes and towns along the railroad's route. I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Galen Thompson

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Noelle Swafford

CREDO Action

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

BJ Jean Barnes

CREDO Action

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Barbara Hoch
196 N Kennebec Ave
MCCONNELSVILLE, OH 43756-1276

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

paul Runion

ATTN: Office of Environmental Analysis Docket No. 30186

My grandfather was a coal miner. The coal company in Black Diamond, Wash. sold company housing for $250. My grandfather almost didn't buy it, as it was too expensive. My grandfather died of Black Lung. I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. All this so that Arch Coal can sell this super polluting coal to China and increase it's profits again. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. Leave the coal in the hole. Subsidize instead clean energy like solar and wind. The descendants of my grandfather, the coal miner, want us to move to next generation clean power instead. Thank you.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Bob D Hoff

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Eric Pranausk

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and strongly urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change. Energy-wise, "business as usual" MUST end NOW! We must stop burning fossil fuels.

Sincerely,

Ellen E Barfield

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Thomas Sholly

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Joslyn Baxter

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Marie S Williams

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Susan Shaak

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Hugh Harris

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Bonnie Margay Burke

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Peter Lang

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Davis & Rhonda Costas-Mirza

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Priscilla Drake

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Julie Gandulla

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Marisa Gonzalez

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Edward Mckinney

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Berkly D Miller

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Bradley adams

ATTN: Office of Environmental Analysis Docket No. 30186

What? It's OK to build a railroad so the Chinese can burn more coal and we can't even afford to bring Amtrak along the NE corridor into, at least, the 20th century? Outrageous! Thousands of us depend on an antique and neglected system and nobody needs yet more coal fired Chinese pollution. Of course, and anybody in their right mind, oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The most devastating threats associated with Arch Coal's reckless and irresponsible project would be to the climate. After being burned in overseas power plants, the coal that would be mined and hauled by the proposed railroad would release over 60 million tons of carbon pollution every year, doubling Montana's annual greenhouse gas emissions. Coming right on the heels of the EPA's Clean Power Plan rule, aimed at reducing greenhouse gas emissions from coal-burning power plants, this doubling-down on climate-disrupting coal simply cannot be permitted by a rational, science-based culture. The International Energy Agency, made up of oil- and gas-producing nations, indicates that there are several times more fossil fuels in proven reserves than can ever be burned without turning this planet into an unrecognizable hellscape. Based on the international carbon budget through 2100 and the amount in proven reserves, we need to keep about 80% of fossil fuels in the ground. And coal is where we need to start. The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. It must be stopped.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mary Woods

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

June Stepansky

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Heidi Wood

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Cody Cody Frazier

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Ms. E'willer Jordan
617 W. 44th Street, Jacksonville Fl.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Francisco Koch

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Phyllis Erwin

CREDO Action

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

David H. Haight

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Wayne Kelly

ATTN: Office of Environmental Analysis Docket No. 30186

JUST SAY NO to COAL! Really, this fuel has presented health hazards and destruction to our environment long enough now. We desperately need an investment and commitment to "renewable /green energies" Let us "pay it forward" to future generations and incorporate solar and wind power where applicable. I say practice CONSERVATION first. So it should come to no surprise that ; I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Heidi Chapman Supkis

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

James Martin

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Symone Ma

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Tom Vachon
PO Box 28, South Tamworth, NH

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

val Hammel

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Michael Kirkby

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Katrina Shadix

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Barbara Porter

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

David Tasker

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Clara Zschaler

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Celia Scott

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Thomas Garrett

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

James R Brown

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Thomas C. Sellars

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Dave Heilemann

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Maureen R Pisani

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Joy Baker Baker

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Elizabeth VanBuskirk

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Jay A Chenoweth

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Gerrit Woudstra

Coal contributes to our climate crisis. I would not oppose further mining of coal and construction of the Tongue River Railroad if technology had developed a process to burn "clean coal." "Clean coal" is a nice idea but it simply is not yet possible and I don't know if that method will ever be possible. In light of this and our nation's goal to reduce the input of more carbon into the atmosphere, the Surface Transportation Board should take the ‘no action alternative’ to the Tongue River Railroad’s transport of coal.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Deborah Andrew

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mitchell Chaikin

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

S Williams

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

John Proctor

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Barbara Callahan

Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Barbara Cowan

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Elizabeth Stephens

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Maja Wolfe

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

John R Hinners

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Martin Bloom

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

David A. Smith

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

William Nasebandt

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Kent Anderson

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mary Jo Al-Tukhaim

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Lila hofmann

The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. I lived in Montana for 16 years and saw first hand the devastation that coal mining causes. Add in the pollution of the land, water and air, and you have a recipe for disaster. Say no to transporting newly lined coal to China. The coal industry can transform itself into a planet-friendly industry. No surface coal transportation.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

EL Lou Cholak

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Dr. Todd Walker

ATTN: Office of Environmental Analysis Docket No. 30186

Stop propping up the filthy, obsolete energy source that is coal. It threatens our health by being a main cause of asthma, it is a primary source of mercury and arsenic contamination in the environment and its carbon emissions are the main driver behind climate change. We don't need it, we don't want it. I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Marjorie Schwartz

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Richard Smartt
