The passage of freight trains across La Rd, State Rtes 14 and 59, and Lake Cook Rd would isolate our local hospital Good Shepherd from emergency vehicles. The same could be true for our fire and police vehicles. In Lake Zurich trains pass over underpasses on State Rte 22 and 12 prior to entering into the Barrington area. Even if underpasses were built on 4 roads mentioned above you should consider the environmental damage to an area with so many more freight trains lumbering through the area. What is the record of CNR Co as regards traffic mishaps, derailments etc? Should you proceed with approval of the acquisition on condition of underpasses being built who pays for the construction costs? I have experienced the unpleasant circumstances when a freight train on Chicago Northwestern line stopped on the tracks in the middle of town for hours thus causing traffic havoc for emergency and in particular for emergency vehicles.
