

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

I object to this proposed transaction because of its impact on the quality of life in this village (Barrington). The economic benefits which are at best fuzzy estimations do not begin to outweigh the costs to our community in terms of

- quality of life
- traffic congestion
- decreased ability of public safety to respond
- increased noise
- increased exposure to possible hazardous elements via accidents.
- decreased property values.

In the event this transaction is allowed to proceed, it is ESSENTIAL that CN be ~~also~~ required to fully fund AND IMPLEMENT complete mitigation.

of negative effects BEFORE being allowed to run additional trains on the EJ+E tracks.
