Attn: Dave Navecky
Docket # FD 35952 Great Lakes Basin Transportation, LLC Project

To all it concerns:

It's our opinion that the Great Lakes Basin Transportation Project should **NOT** be allowed permission to proceed.

After spending almost \$100,000 on tiling and waterways on my 140 acre farm I would never like to see that expense "crushed" or blocked because of the rail construction. Tiling & waterways make this prime land much more productive. I know personally how to wind farm construction crushed tile!

Very sincerely,

Linda Hinkston
