To Whom it may Concern,

I am writing this letter to voice my concerns regarding the proposed train coming through Bradford Township. We are wondering what this project will do to our local landscape. My husband and I have been very active in preserving a local county park (Carver-Roehl Park). We are worried about what an impact a high speed railroad will have on the wildlife in and around the park. We have formed a Friends Group, 501C non profit organization and have many local events here, including an Easter Egg Hunt and a Fall Fest. We also have nature walk and educational programs for the schools. We value the slake limestone and the Spring Brook creek. We have the gravesites of the earliest settlers of Bradford Township right here in our park. Many improvements have been made to this park by the local residents. This is a nature park with hiking, bird watching and many educational programs.

We also live on Turtle Creek. We enjoy the serenity and peaceful surroundings. The Turtle Creek is enjoyed by many Wisconsin families. Canoeing and kayaking are very important to our community. The impact on the Creek and the Park would be major. . The rural loss of landscape, noise and impact on wildlife should all be considered. Please take all of this into consideration when reviewing this proposal.

Thank you for your time and if you have questions or concerns you can contact me at 608-346-5066 or by mail. Sharon Jones, 10412 E Creek Rd, Clinton, WI.

Sincerely,
