How will CN's proposed acquisition of the EJ&E impact you?

It will directly impact each day's drive for our family. Other than Rand Rd/12 it is very difficult to travel from the north and west portions of Lake Zurich to the south east, towards Chicago. This includes five (5) crossings that we use on a weekly basis.

An increase of 25 trains per day over the current 5 trains, will greatly increase the odds of these trains personally impacting our family.

The impact to safety, both the increased tolerance to emergency equipment and the increased hazardous materials is concerning
