Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/29/08

Comments must be submitted by September 30, 2008.

Barrington is already a railroad commuting town, with existing traffic problems that have yet to be solved. Adding additional rail traffic to an already congested area makes no sense, without extensive infrastructure improvements. The residents of Barrington and other villages involved should not be forced to bear the cost of these improvements.

Safety concerns with fire & police will be severely compromised, as train traffic increases blocking many intersections in the village. The health and welfare of residents will be jeopardized.

Residents on or close to tracks will see deep depreciation of their equity. Many will be forced to sell short because of noise and congestion. We do not need any more towns in the surrounding villages without a much better comprehensive plan.

YOUR INPUT IS IMPORTANT!
