How will CN's proposed acquisition of the EJ&E impact you?

How will it not impact me? We bought our home in Lake Zurich because we love the quite bedroom community feel. You might as well put in the 3rd Chicago airport in our backyard. It is the same thing. It is easy for a company, who is not individually impacted to make these decisions. We ~~do~~ not want this. It can not be any clearer. It will have a negative impact ~~on~~ on so many levels: environmental, safety, home values and traffic. Who will want to buy a home in a community who is home to a super train system.

Whatever it takes we must stop this. There are no benefits, except for a Canadian companies bottom line.

Mary Keller
