Transcript:

We are very much in opposition to this merger. it will increase traffic substantially in our area. It will also cause hazardous conditions for the numerous school busses that go across Galger Road, Cedar Road, and Nelson Road. This is going to put out children's lives in jeopardy, not to mention the hazardous materials that are going to be increased by almost 700% and will put the whole communities at risk. We very much oppose it. Thank you
