

Environmental Impact Statement

CN | EJ&E

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date:

8/27/08

Comments must be submitted by September 30, 2008.

The impact to Barrington and the surrounding areas is severe. Currently, all train cross impacted by this CN proposal are at ground level. This causes the following impacts:

- Increased Emergency Response Time
- ~~and~~ Risk to children walking to school
- Increased Noise
- Increased travel time for residents and businesses
- Possibility that emergency responders can not get across tracks.
- Increased Pollution from trains
- Increased risk to students taking buses
- Increased travel times for students

Due to the above points, I strongly oppose the CN proposal, and will support efforts to limit or stop this proposal.

JOHN WIRTZ
